EXPLANATION:—In the Left-Hand Table are the Years of the Century, and above each of which is the Dominical Letter corresponding with that Year. Then, opposite to the Month and Week, at the Foot of the Right-Hand Table, will be found a corresponding Letter, over which are placed the Days of the Month and Week for that Month, (distinguishing the Sundays by a different Type.) Each Blank Space in the Left Hand Table shows the year following to be Leap Year; and as every Leap Year has two Dominical Letters, the Letter above the *Blank Space* must be used for January and February in every Leap Year, and for the other Months, use the Letters belonging to the respective Years.

By transposing the Dominical Letters, this Calendar would answer for any Century.

EDINBURGH AND LEITH STREET DIRECTORY.

The situation of the Closes, Courts, and Lanes, are pointed out by their Names being printed in Italics, at the place or Number of the Street in which they occur; and also when any Street is divided by Cross Streets, the Divisions are distinguished by the Name of the Cross Street being printed in Italics, with a ☞ before it, between the two Numbers of the Street in which they occur.

•• To those having occasion to circulate advertisements, &c. this part of the Directory, in connexion with the List of Letter-carriers at the beginning of the book, will be exceedingly useful, — the names and addresses being taken from the following list, and then thrown into districts for delivery, according to the rounds of the different Letter-carriers.

SECOND DELIVERY.—The second delivery commences at 12 noon. Town letters to 11-40 m.

THIRD DELIVERY.—The third delivery commences at 4 a., and includes the letters by the Dumfries and London, Glasgow day and Irish Mails, with Town letters to 3-15 a.

FOURTH DELIVERY.—The fourth delivery commences at 6 a. Town letters to 5-15 a.

SUNDAY DELIVERY.—The delivery on SUNDAYS (to persons calling at the Office only) takes place from 7-30 to 9 m. and from 4 to 5 a.

LATE DELIVERY OF LETTERS.—Representations having been made of the time occupied by the LETTER CARRIERS in the DELIVERY of their LETTERS through the City; the inconvenience has been ascertained to be in a great measure, if not entirely, attributable to the delays experienced by the Carriers at hall doors, owing to servants not answering the bells; and in some cases, by the servants not being provided with money to pay the postage. Instructions have been issued to the Letter Carriers to *rap or ring at each hall door twice*, pausing an instant. The application of the Carrier, therefore, cannot be mistaken; and the public are earnestly requested to aid the Post-master General in his Lordship's anxiety to expedite the general delivery of the correspondence, by obliging servants to answer immediately the Carrier's application, and to have the servant previously provided with sufficient sums to discharge their demands. The increase of Letters, and the reduction of Postage, render it imperative on the public not to delay the Letter Carriers on their walks. Positive orders have been issued to them not to remain at hall doors where servants are unprovided with money to redeem letters.

A system of Registration has been adopted, and all Letters, whether containing Coin or not, can be

REGISTERED

on payment of a registration fee of One Shilling, in addition to the ordinary rates of Postage on Inland and Colonial, as well as on Ship or Foreign Letters, or Letters passing through France. On those for delivery within France, the charges, besides the registration fee of one shilling, will be the English rate to France, in addition to double the French rate to the place to which the Letter is addressed. A printed acknowledgment torn out of the receipt book, and stamped with the office stamp, will be given to any person registering a Letter. Registered Letters will be taken at the General Post Office, at the Receiving Houses, and by all Postmasters throughout the United Kingdom, until within half an hour of the closing of the Box for the particular Mail or Bag by which they are to be dispatched. Registered Letters bearing a sufficient number of Stamps will be considered Paid Letters, but the registration fee of one shilling must always be paid in money.

In the case of Foreign, Colonial, or Ship Letters, it must be clearly understood, that Registration cannot extend beyond the Port of despatch in the United Kingdom, though parties, if they wish it, may register such Letters as far as the Port of despatch. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post Office undertaking to provide for their security till they shall have been delivered, if addressed to France, and so long as they remain in the French territory, if passing through France.

The arrangements for carrying out the system of Registration have been made with the view of ensuring the punctual delivery of Registered Letters; on their delivery the parties to whom they may have been addressed will be required to acknowledge in writing their receipt.

The system of Registration provides a secure mode of transmitting

BANK NOTES, BANK POST BILLS, DRAFTS, &c. &c,

and persons having occasion to send by Post small sums will avoid risk by sending the money through the medium of

THE MONEY ORDER OFFICE,

now carried on, on the Public account, at the General Post Office. The commission chargeable for Money Orders was, on the 14th of November 1840, reduced to

THREEPENCE ON SUMS NOT EXCEEDING TWO POUNDS, and on sums above two, and

NOT EXCEEDING FIVE POUNDS, TO SIXPENCE.

No Order will be given for sums beyond this amount.

These modes having been devised expressly with a view to the security of property, it may reasonably be expected that all persons having occasion to transmit money will avail themselves of the opportunity of securing it, and in no case, by committing property UNREGISTERED to the Letter boxes, RISK ITS LOSS.

It, however, persons are willing to incur such risk, should the articles forwarded be Notes, or Cheques payable at sight, they should be cut in halves, and the second halves should not be despatched until the receipt of the first has been acknowledged. The numbers, dates, and amounts should also be carefully taken.

Money Orders may be obtained at the General Post Office, and of all Postmasters, and of the Chief Deputy Postmasters, throughout the United Kingdom.

(For List of Post Towns and Principal Places, see page 300.)

* * In cases where personal attendance is inconvenient, if the Order is received by the person to whom it is made payable, and the party presenting it for payment can afford full information as to the Christian name, Surname, Address, and Occupation of the person who originally obtained the Order, payment will be made, but unless these conditions are strictly complied with, it will be refused.

PEERS and MEMBERS of PARLIAMENT no longer dispatch or receive correspondence FREE. MEMBERS of either House are entitled to receive, free of charge, PETITIONS to PARLIAMENT, provided that each Petition is sent without a cover, or in a cover open at the sides, and does not exceed the weight of Thirty-two Ounces. ADDRESSES to her MAJESTY pass free. With these exceptions, all Inland Letters or Packets, including those from the Channel Isles and the Isle of Man, if Prepaid, are subject to the following

RATES OF POSTAGE:

Not exceeding half an oz. in weight,	One Penny
_____ one oz.	Twopence
_____ two oz.	Fourpence
_____ three oz.	Sixpence,

and so on, Two Rates being added for every ounce up to Sixteen Ounces, beyond which, with the following exceptions, no packet, whether subject to Postage or not, can be received.

1. Parliamentary Petitions and Addresses to Her Majesty.
2. Parliamentary Proceedings.
3. Letters and Packets addressed to or received from Places beyond Sea.
4. Letters and Packets to and from Public Departments.
5. Deeds, if sent open, or in covers open at the

sides. They may be tied with string and sealed, in order to prevent inspection of the contents, but they must be open at the sides that it may be seen that they are entitled to the privilege.

6. Bankers' Parcels dispatched from London, and specially delivered at the General Post Office, under certain regulations.

With these exceptions, all Packets above the weight of Sixteen Ounces will be immediately forwarded to the Dead Letter Office.

Inland Letters or Packets put into the unpaid Letter Boxes, are charged double the amount of Postage to which, had they been prepaid, they would have been liable. The Scale of Weight in force for General Post Letters is equally applicable to Letters passing through the local penny posts throughout the Kingdom, and to those passing through the local Posts of Edinburgh, London, and Dublin, the Regulations which restricted the weight of these latter to Four Ounces having been abolished. They are subject to the same Rules and the same Charges as General Post Letters, and must be paid in advance, or they will be liable to double the rate to which they would otherwise be subject.

The same Regulation applies to Letters prepaid by Money, where the full and proper rate of Postage has not been paid in advance.

POSTAGE STAMPS.

Letters written on Stamped Paper, or enclosed in Stamped Covers, or having Stamps affixed to them, (the Stamps in every such case being equal to the rates of Postage chargeable on such Letters if prepaid.) will pass *Free* of all other Postage charge in whatever part of the United Kingdom they may be posted.

In those cases where the value of Stamps on the Letter is less than the amount of the Postage to which it would be now liable, if prepaid, the letter will be charged double the amount of such difference on delivery. An Inland Letter, for example, weighing more than Half an Ounce and not exceeding an Ounce, if bearing only a Penny Stamp, will be charged Twopence on delivery.

Stamps may be used for Printed Votes and Proceedings in Parliament; if the Stamps, however, should be less in value than the proper rate of Postage to which these documents are subject, only the difference, and not double the difference, is charged.

Stamps (provided they cover the whole postage) may also be used on Foreign, Colonial, and Ship Letters, &c. outwards. If any Letter, however, addressed to places beyond sea, to which prepayment is compulsory, shall bear an insufficient number of Stamps, it will be sent to the Dead Letter Office, to be returned, in all practicable cases, to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries. In such cases, therefore, Letters will be chargeable with the same rates as they would be if not bearing Stamps.

All these Regulations will be applicable to Newspapers in those cases where they are liable to Postage.

NOTE.—Adhesive Stamps should be placed on the front of the Letter and upon the right-hand corner on the upper side. Should this direction not be attended to, from the rapidity with which the duty must be performed, Letters which bear Stamps will frequently be taxed, while the Parties receiving them will be put to much trouble in obtaining a return of the Postage improperly charged. In all cases of complaint, whether of overcharge

or of any other irregularity, the Covers of the Letters must invariably be kept and sent to the Post-Office, as affording the only means of investigating the complaint.

ADHESIVE STAMPS AND ENVELOPES.

Every Postmaster, Sub-Postmaster, or Letter-Receiver, without exception, will sell the Postage Label Stamps and Stamped Envelopes to the Public at the following Prices:—

- The Penny Label Stamps, at 1d. each.
- The Twopenny ditto, . . . 2d.
- The Penny Envelopes, 24 for 2s. 3d. or 2 for 2½d.
- The Twopenny ditto, 12 ,, 2s. 2d. ,, 3 ,, 6½.

NON-COMMISSIONED OFFICERS, CAPTAINS' STEWARDS, SEAMEN, AND SOLDIERS, to and from the East Indies by the Overland Mails, "via Falmouth," can send and receive Letters, under the weight of half an ounce, on their own private concerns only, while they are employed in her Majesty's Service, or in the service of the East India Company, for one penny.

Letters coming from a Seaman, or from a Serjeant, Corporal, Trumpeter, Fifer, or Private Soldier.—The Penny must be paid at the time it is put into the Post Office.

The name of the Soldier or Sailor, his Class or Description, and the name of the Ship or Regiment, Corps or Detachment, to which he belongs must be specified.

And the Officer having the command must sign his name, and specify the name of the Ship or Regiment, Corps or Detachment, he commands.

Letters going to Seamen or Soldiers.—The Penny must be paid at the time it is put into the Post Office, and the direction must specify the class of person, and the Ship, Regiment, or Corps to which it belongs.

The postage upon Soldiers' and Seamen's Letters received from parts beyond sea, without the penny having been prepaid, is twopence in addition to the Ship Letter gratuity, if received by Private Ship.

Threepence Postage is charged on Letters addressed to Soldiers and Seamen to either of the following places:—River Gambia, Sierra Leone, Goree, Senegal, Cape Coast Castle, Fernando Po, Coast of Africa, Ascension, (Isle,) and China. To St Helena, the East Indies, and New South Wales, one Penny. Seamen's and Soldiers' Letters from Abroad by private Ships are chargeable with Threepence each.

* * Warrant Officers either in the Army or Navy, or Master's Mates of the Navy, are not entitled to receive or transmit Letters at less than the usual rates of Postage.

Soldiers' and Seamen's Letters are not liable to any additional rate upon redirection; but all other LETTERS REDIRECTED, become, on redirection, subject to fresh rates of postage; but when a letter has been prepaid, and the person for whom it was intended has quitted the place to which it has been addressed, the letter may be forwarded to any place in the United Kingdom, for an additional rate, to be paid on delivery.

OVERCHARGED LETTERS.—Overcharges returned at the Windows of the PAID-LETTER OFFICE from 10 A.M. till 4 P.M.

PRINTED VOTES and PROCEEDINGS in PARLIAMENT, or of the COLONIAL LEGISLATURES, are charged—

- Under four ounces.....1d.
- Above four and under eight ounces.....2d.
- Above eight and under twelve ounces.....3d.
- and so on.

Such Votes and proceedings, whether paid or

unpaid, pass at these rates between places in the United Kingdom as well as the Colonies, by PACKET. To those places to which there are no packets—New South Wales for instance—they may be forwarded “by Private Ships,” at DOUBLE the above rates. They are not, however, forwarded to the East Indies, *via* Falmouth and Alexandria, nor to places through France, under the full rates of Letter Postage. The Postmaster-General is authorized (if he shall see fit) to delay the transmission of Printed Votes and Proceedings in Parliament for any space not exceeding Twenty-four hours from the time at which the same would otherwise have been forwarded.

COIN SHOULD NOT, UNLESS IN REGISTERED LETTERS, BE SENT BY POST.—The great increase in the number of MONEY LETTERS having rendered it impossible, without hazard to the punctual despatch of the Mails, to continue the former practice of entering the addresses of such Letters, and of taking receipts for them on delivery to the parties to whom they were addressed; such practice being now adopted in the case of Registered Letters ONLY.

BOTTLES CONTAINING LIQUID, AND OTHER ARTICLES OF A BRITTLE NATURE, should not be forwarded through the Post, as they are almost invariably broken, either by the operation of stamping or by the friction of the Mail Coaches. It is, besides, improper so to transmit such articles, as by accidents to them the seals of Letters in the bags may be damaged, the Letters mutilated, or their Addresses entirely effaced. For similar reasons, articles having SHARP OR HARD EDGES should not be transmitted through the post; and the Act 3 and 4 Victoria, cap. 96, expressly directs that no letter shall be sent by Post containing any EXPLOSIVE OR OTHER DANGEROUS MATERIAL OR SUBSTANCE.

STAMPS.

The date shows when the letters were received at the Post Office.

The circular stamp, at the back of the letter, is used when the postage is to be paid on delivery, or has been prepaid by stamps.

Ditto, on the face of the letter, with the word “paid,” when the postage has been paid at the time of posting the letter.

LETTERS NOT TO BE DELIVERED BACK.—To prevent the possibility of Letters being surreptitiously obtained from the Offices where put in, office-keepers are strictly forbid returning, to any persons whomsoever, Letters that may be applied for, under whatever circumstances the recovery may be urged. This is, moreover, forbid by the established principle, that the instant a letter is committed to the Post, it is no longer the property of the Sender.

PENALTIES.—By the 1st Victoria, cap. 36, sec. 2, any person illegally conveying Letters incurs a penalty of L.5 for every offence, and L.100 for every week the practice is continued. The Sender also incurs a penalty of L.5 for every offence, with full Costs of Suit.

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

It is not compulsory to send Newspapers or Supplements to Newspapers by the Post, but those that are intended to be so transmitted, are entitled to pass free. All Newspapers must be sent in covers, open at the sides, and no words or communication may be printed on such papers after the same shall have been published; nor must there be any writing or marks upon any Newspaper, or the cover, other than the name and

address of the person to whom it is sent; nor any paper or thing enclosed or concealed in, or with such Newspaper or the cover, nor any printed words or communication on the cover, except that News-venders ONLY may PRINT their names and addresses thereon. Newspapers may be examined by the Officers of the Post Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage which a letter of the same weight would have been liable to. And any person who shall write or enclose any thing in any Newspaper or the cover thereof, or shall print any words or communication on a Newspaper, after it shall have been published, to be sent by the Post; or any person who shall knowingly send, or cause to be sent, by the Post, a Newspaper, in respect of which any one of those offences has been committed, may, at the option of the Postmaster-General, be prosecuted as for a Misdemeanour.

Newspapers pass free by the Edinburgh Local Posts, except in those cases where they shall be posted and delivered within the limits, for the time being, of the General Post Delivery, when the postage is one penny on each Newspaper.

** As the mere affixing a Newspaper Stamp on any new periodical publication will not entitle it, as a matter of course, to pass free by the Post, those who may be about to publish, for the first time, any such paper, should submit a copy to the Postmaster-General, in order that it may be determined whether the publication is of a nature that will entitle it to pass free of postage.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.—

“And be it further enacted, that in all cases in which a question shall arise, whether a printed Paper is entitled to the privileges of a Newspaper or other Publication hereby privileged, so far as respects the transmission thereof by the Post under the Post Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final.”

Newspapers from the British Colonies are delivered free of Postage at any place within the British dominions: those for persons who may have removed may be forwarded by Post, free of charge, provided they have not been opened at the place to which they were originally addressed.

NEWSPAPERS TO THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions by Her Majesty's Packet Boats, free of the duty of Postage, provided the same be duly stamped and made up open at the ends, and put into any Post Office within seven days after the day of Publication.

Newspapers may also be forwarded to the Colonies by Private Ships for a Postage of One Penny each, to some Foreign Parts free, and to others for a Postage of Two-pence each, to be paid at the time of putting in, under the same regulations as to date, &c.

Newspapers printed in the British Colonies, brought to Great Britain or Ireland by Packet Boats, if made up without covers, or in covers open at the ends, are delivered within the United Kingdom free of Postage.

Newspapers to the East Indies are forwarded by the Packet *via* Marseilles, on payment of Two-pence with each. The Mail is made up in London on the Fourth of every month, except it happens to fall on a Sunday, when it is made up on the following day.

Newspapers to France are forwarded free of charge to the sender. A rate of four centimes (nearly equivalent to One Halfpenny) will be charged upon delivery in France.

NEWSPAPERS FROM ABROAD.—Newspapers arriving from those "Foreign Parts" to which Newspapers are dispatched free, are delivered free of Postage, except those from France, which are charged One Halfpenny each. From places abroad, to which they are not dispatched free, Newspapers are charged here Twopence each. All Newspapers must be printed in the language of the Country from which they are sent, unless specially exempted by the Lords of the Treasury; those for persons who have removed may be re-directed to them at any place within the United Kingdom, free of Postage, provided they have not been opened at the place to which they were originally addressed.

Newspapers by Private Ships, if put into the Office within seven days after the date of publication, are forwarded to the Cape of Good Hope, Mauritius, or Isle of France, Sydney, New South Wales, Van Diemen's Land, Swan River, South Australia, Chili, Peru, Guatimala, and the Western Coast of America, and the East Indies, on payment of One Penny with each paper; to St Helena and the Western Coast of Africa—*viz.*, St Mary's, River Gambia, Sierra Leone, Cape Coast Castle, Fernando Po, and Ascension, (Isle,) at the same rate; to China, and places not British, on payment of Twopence each, under the above regulations as to date, &c.

* * All Newspapers forwarded by Private Ships, except those between Ports in Great Britain and Ireland, must be paid for when put in.

THE UNDERMENTIONED PRINTED PRICES CURRENT having obtained the sanction of the Lords of the Treasury, pass through the Post Office to the Colonies and Foreign Parts at One Penny each, provided they contain simply the names and prices of articles: the names and addresses of the parties dealing in such articles must be excluded:—

Each Copy to be made up in the same form as a Newspaper, with covers open at the end.

The words "PRICE CURRENT" to be written or printed immediately above the address; otherwise the paper will be liable to full letter postage.

Every Price Current to be posted within seven days after its publication; and no one can be forwarded a second time without being charged with full letter postage.

Any writing, or mark for reference, or initial on such papers or their covers, beyond the address and the designation "Price Current," will subject them to the full rates of letter postage.

Printed Prices Current, and Commercial Lists, from the British Colonies, France, and China, are now admitted into the United Kingdom at the reduced rate of one Penny each, whether conveyed by Packet or Private Ship.

Printed Prices Current, and Commercial Lists, from any foreign country, except France and China, are admitted into the United Kingdom at the reduced rate of Twopence each.

Prices Current, and Commercial Lists, from the British Colonies, passing through the United Kingdom, are liable to a postage of Twopence each, to be paid at the time of being posted.

Prices Current, and Commercial Lists, from the British Colonies, passing through France to the United Kingdom, are liable to a postage of Twopence each.

Prices Current and Commercial Lists, published in the United Kingdom, if duly stamped, and under the weight of two ounces, will be treated as Newspapers, and enjoy the Newspaper privileges—the sanction of the Postmaster-General having been previously obtained.

PLAN FOR THE WEST INDIA MAIL PACKET SERVICE.

Which came into OPERATION (experimentally) 1st October, 1842.

OUT ATLANTIC.—*One large Steamer.*—Out Mails leave Southampton on the 1st and 15th, and Falmouth on the 3d and 17th of each month. The Steamer is about three days in reaching Corunna, four more in performing the 760 miles between that place and Funchal, Madeira, and twelve to thirteen days between Madeira and St Thomas—rather above 2,600 miles. Thus the mails should arrive at St Thomas in nineteen or twenty days from the day of departure from England.

On reaching St Thomas the Ship from Europe delivers all the outward Mails to four Steamers there waiting; one for DEMERARA route; one for JAMAICA and HAVANA direct; one for PORTO RICO, HAYTI, CUBA, JAMAICA, &c.; and the fourth for BERMDA.

Having dispersed the outward Mails the Steamer remains to refit and be ready to form one of the four Steamers to assist in the dispersion of the outward Mails arriving at the end of fifteen days by another steamer from Europe.

Should the outward Steamer not reach St Thomas before midnight on the 22d day from the appointed time of departure from Falmouth, the four collected Steamers at St Thomas proceed with the inter-colonial Mails on their respective routes; the out Mails in such cases being considered *Missing Mails*, to remain after their arrival at St Thomas till the next out-Mails from Europe arrive and are dispersed.

DEMERARA STATION.—*One large Steamer.*—As previously stated, the out-Mails should arrive at St Thomas in nineteen or twenty days. In twenty-two days from the Mails leaving England, the Steamer on the Demerara station starts with them to Tortola, 23 miles; thence to St Kitts, 128; thence to St Nevis, 11; thence to Montserrat, 33; thence to Antigua, 32; thence to Guadeloupe, 70; thence to Dominique, 45; thence to Martinique, 40; thence to St Lucia, 45; thence to Barbadoes, 100; and thence to DEMERARA, 390; being a total of more than 900 miles, which being done at an average of eight miles an hour, the packet should arrive at Demerara in about four weeks from the date of the Mails leaving England.

The Steamer stops until thirty days, fifteen hours, reckoned from the time appointed for the Outward Mails leaving Falmouth; this gives an average stay of three days at Demerara. She then returns by the same route, receiving by the way all the Home and Inter-Colonial Mails from the different islands, (including those subsequently named under the head "Trinidad Station,") which will be delivered to her by the branch Steamer at Barbadoes. On reaching St Thomas she delivers the Home Mails to the steamer bound to Bermuda.

The Mails to and from Berbice are to be forwarded overland via Demerara as formerly.

TRINIDAD STATION.—*One small Steamer.*—On the arrival of the Steamer from St Thomas at Barbadoes, this Steamer receives all Outer and Inter-Colonial Mails destined for St Vincent, Grenada, Tobago, and Trinidad, at which latter place, distant from Barbadoes about 340 miles, the Mail should arrive in about four weeks from England. After about one day's stop at Trinidad, the small steamer returns by the same route with the Home Mails, and should arrive about one day before the large Steamer arrives at Barbadoes to receive them.

JAMAICA STATION.—*One small Steamer.*—This Steamer receives at St Thomas the Outward and Inter-Colonial Mails for Porto Rico, Hayti, and St Jago de Cuba, with which she starts at the same time with the "DEMERARA" Steamer. From St Thomas to St Juans, Porto Rico, 65 miles; thence to Cape Haytien, 360; thence to St Jago de Cuba, 215; and thence to Jamaica, 172 miles, at which place the small Steamer should arrive in between four and five days, or about twenty-six or twenty-seven days reckoned from the departure of the Mails from England. She remains at Jamaica until thirty-one days, fifteen hours, from that time, and then returns by the same route; on her arrival at St Thomas, the Home Mails, &c., are transferred to the Steamer bound to Bermuda, the small Steamer remaining at St Thomas to perform the same work after the arrival of each "OUT ATLANTIC" Steamer.

BERMDA STATION.—*One large Steamer.*—This Vessel leaves ST THOMAS with the Mail for BERMDA at the same time with the other outward-bound Steamers. She conveys at the same time all the Home Mails collected by the Steamers on the DEMERARA, TRINIDAD, and JAMAICA Stations, and should arrive at Bermuda, distant from St Thomas 845 miles, in about six days, or about twenty-six from the date of her departure from England; at Bermuda meets the Steamer from Havana, receives from her the Mails, &c., for England, and after completing her stock of coal, becomes the HOME ATLANTIC Steamer, subsequently described.

HAVANA STATION.—*One large Steamer.*—(By this Vessel the Mails are conveyed to Jamaica; and the arrangement is made to afford the island of Jamaica seven clear days for replying to its correspondence.) On the arrival of the Out-mails at St Thomas, this Steamer receives the Out and Inter-Colonial Mails for Jamaica—the “CHAGRES STATION,” the “HONDURAS STATION,” and the “MEXICAN STATION.” With these she proceeds to Jamaica direct, 650 miles from St Thomas. She should arrive in three days, At Jamaica she delivers every alternate time the “SANTA MARTHA,” “CARTHAGENA,” and “CHAGRES,” Mails, to a schooner waiting to receive them. After a delay of twenty-four hours, the Steamer proceeds to Havana, distant from Jamaica 710 miles. She should arrive at the Havana in about thirty days from the date of departure from England. At Havana she meets every alternate time a Schooner, to which she delivers the Honduras Mails, and a Steamer with the Mexican Mails. From Havana she proceeds to Nassau, 360 miles, thence to Bermuda, 775 miles.

The Steamer from St Thomas, as previously shown, (“SEE BERMUDA STATION,”) is calculated to reach Bermuda in about two days after the Havana Steamer, but should she not appear in that time, the Steamer from Havana must not depart for Europe till eleven days after she quitted the Havana.

This will allow three days for any casualty delaying the Steamer from St Thomas.

MEXICO STATION.—*One large Steamer.*—On the arrival of every alternate Out-mail at Havana, this Steamer receives the Out and Inter-Colonial Mails for Mexico, and after four days’ stay proceeds to Vera Cruz, distant from Havana 810 miles, where she lands the mails for that place, and for the city of Mexico; she then goes to Tampico, 205 miles from Vera Cruz, lands the mails, and remains until every thing is shipped—Mails, Specie, &c. She then returns to Vera Cruz, and remains there till fifty-four days, sixteen hours, reckoned from the time of departure from England. Having received Home-mails, Specie, &c., from Mexico and Vera Cruz, she returns to Havana, meets the Outward Mexico Steamer, and proceeds to Bermuda, as shown in “HAVANA STATION.”

HOME ATLANTIC—*One large Steamer.*—Home-mails from Havana reach Bermuda in forty days from the time the Out-mails left England; and the Home-mails collected at St Thomas reach Bermuda in forty-one or forty-two days from the same time. In forty-three or forty-four days, or as soon as the Steamer from St Thomas has completed her coals, the whole of the Home-mails leave Bermuda for England by way of Fayal, 1770 miles from Bermuda, and 1850 miles from Southampton, which should be reached in sixteen or seventeen days from Bermuda.

LA GUAYRA STATION.—*A Schooner.*—On the arrival of each alternate Steamer at St Thomas with the Out-mails for La Guayra and Porto Cabello in 22 days from England, this Schooner proceeds to La Guayra, 460 miles, usually performed in about ten days; thence to Porto Cabello, 68 miles; thence to St Thomas, 500 miles. The time occupied in going from, and returning to, St Thomas, is usually about 26 days.

CHAGRES STATION.—*A Schooner.*—On the arrival of each alternate Havana Steamer at Jamaica with the Out-mails for Santa Martha, Carthagena and Chagres, which should arrive at Jamaica in about twenty-five days from England, this Schooner proceeds to Santa Martha, distant from Jamaica 440 miles, usually at the rate of 2½ miles an hour; thence to Carthagena, 105 miles, at about double that rate of speed; thence to Chagres at about the same rate, 5 miles, and thence back to Jamaica, 560 miles at about 2½ miles an hour. As the Schooner stops about two days at Santa Martha and Carthagena, and about four days at Chagres, she occupies about four weeks in the voyage from and to Jamaica. She must leave Chagres, on her return to Jamaica, in precisely forty-three days, thirteen hours, from the time the Out-mails left Falmouth.

HONDURAS STATION.—*A Schooner.*—On the arrival of each alternate Out Steamer with the Honduras Mails, (which should arrive in about thirty days from England,) this Steamer proceeds with them to Belize, Honduras, distant from Havana 500 miles. She leaves Honduras again with Home and Inter-Colonial Mails in forty-six days, twenty-two hours after the departure of the Out-mails from Falmouth; this allows a stoppage of about a week at Belize, including which, the voyage to and from Havana (usually performed at an average speed of about two miles per hour,) occupies about four weeks.

The Royal West India Mail Packet Company’s Schooner no longer sails between Madeira and Fayal.

SHIP LETTERS.

The single uniform rate on Letters between the United Kingdom and places beyond Sea, when conveyed by Private Ships, is *sd.*, in whatever part of the United Kingdom the Letters may be posted or delivered. This is the rate now taken to Letters between the United Kingdom and the East Indies, &c. &c. when conveyed by Private Ships, the former distinction between these and other descriptions of Ship Letters having been abolished.

The rates of Postage on “Ship” as on other Letters are taken by weight.—

- Under half an ounce, Single.
- Under an ounce, Double.
- Under two ounces, Quadruple.
- Under three ounces, Sextuple, and so on.

PERSONS EXEMPT FROM SHIP LETTER POSTAGE.

The Owners, Charterers, or Consignees, (resident in the United Kingdom,) and the Owners, Consignees, and Shippers of Goods on board vessels inward bound, are entitled to receive their Letters free from Sea Postage, to the extent col-

lectively of Six ounces in weight, by any One Vessel coming from Ceylon, the Mauritius, the East Indies, or the Cape of Good Hope, for an Owner, Charterer, or Consignee of such Vessel, the letters may be collectively Twenty ounces in weight. The Owner, Charterer, or Consignee must be described as such on the address and superscription; and in the case of Owners, Shippers, or Consignees of goods, it must also appear by the Ship’s Manifest, that they have Goods on board the Vessel. Such persons are entitled to have their Letters which come within the above Conditions before the Master of the Vessel delivers the other Letters in his charge to the Post Office.

* * Every Person who shall, with intent to evade any Duty of Postage, falsely superscribe a Letter as being the Owner, or the Charterer, or the Consignee of a Vessel conveying the same, or as the Owner, or the Shipper, or the Consignee of Goods shipped in such Vessel, shall for every such offence forfeit Ten Pounds.

NORTH AMERICA, AND BRITISH AND FOREIGN WEST INDIA ISLANDS.

The Mails for North America are forwarded by Steam Packets, which leave Liverpool twice a month, immediately after the arrival of the London Mails of the 3d and 18th, unless either of these should fall on a Sunday, and then on the succeeding day. During the winter months, viz. Dec. Jan. Feb. and March, but one Mail, that of the 3d, is despatched.

Letters to the British West Indies are forwarded at the charge of one shilling for each single letter, and so in proportion from all parts of the United Kingdom, without any charge for inland postage.

All Letters addressed to North America will be considered as intended to be forwarded by the Contract Steam Packets, and charged accordingly, unless the words "By Private Ship" be plainly written on them.

† Letters for Canada, conveyed by the North American Packets from Liverpool, if specially addressed "via Boston," will be forwarded by that Route, in the United States Mail, provided the Packet Postage be paid in advance.

RATES OF POSTAGE WITHIN BRITISH NORTH AMERICA.

Letters forwarded to or from British North America by the Liverpool Packets, or by Private Ships, passing direct between the United Kingdom and British America, are charged with an Uniform Colonial rate of Twopence the half ounce when posted or delivered at any other towns than the ports of Halifax, Nova Scotia or St John's, Newfoundland.

When not conveyed direct between the United Kingdom and British America, but forwarded through the United States, they are liable to the full Internal rates, according to distance.

The Packet leaves Marseilles the 1st, 11th, and 21st of each Month, at 5 P.M.; and Alexandria the 6th, 16th, and 26th, at 4 P.M. Letters intended to be sent by these Packets must be addressed "via Marseilles" "per French Packet."

GREECE, MALTA, AND IONIAN ISLANDS.

Mails to be despatched by Steam Boats from Falmouth are made up in London on the Saturday nearest to the 15th of each month, and on the last day of each month, unless it happens on a Sunday, when they are made up on the previous day. Letters intended for this conveyance must be specially addressed "via Falmouth."

Closed Mails are also made up in London on the 4th of each month, and despatched via Marseilles, from whence they

are forwarded by British Steam Boats. All Letters are sent by this route unless otherwise addressed.

Letters are likewise sent via Marseilles, from whence they are forwarded by the French Steam Boats, which leave Marseilles on the 1st, 11th, and 21st of each month, if specially so directed.

EGYPT, SYRIA, AND EAST INDIES.

Mails to be dispatched by Steam Boats from Falmouth direct to Alexandria are made up in London on the last day of each

month, unless it happens on a Sunday, when they are made up on the previous day. Letters intended for this conveyance must be specially addressed "*via Falmouth.*"

Closed Mails are also made up in London on the 4th of each month, and dispatched *via* Marseilles, whence they are forwarded by British Steam Boats. All Letters are sent by this route unless otherwise addressed.

Letters are likewise sent *via* Marseilles, whence they are forwarded by the French Steam Boats, which leave Marseilles on 1st, 11th, and 21st of each month, if specially so directed.

N.B. The Letters which are sent in the Closed Mails on the 4th of the month, are forwarded from Malta to Alexandria by the Steam Boat which left Falmouth with the Mail of the last day of the previous month.

LETTERS NOT TO BE SEALED WITH WAX WHEN SENT TO WARM CLIMATES.

The practice of Sealing Letters passing to and from the East and West Indies, and other warm Climates, is attended with much inconvenience, and frequently with serious injury to the Letters, in consequence of the Melting of the Wax, and adhesion of the Letters to each other.

In the case of Mails received from India, considerable delay is occasioned; and notwithstanding the greatest care is taken in separating the Letters, which, owing to the cause already mentioned, adhere closely together, many are much damaged and torn; the public are therefore recommended in all cases to use Wafers in preference to Wax, in securing their Letters sent to India or other warm Climates, and also to advise their correspondents in those countries to pursue the same course

A NEW CONVENTION

Having been made with FRANCE which will come into operation on the first day of June next, the following alterations in the rates of Postage, will take place on and from that date.

LETTERS TO AND FROM FRANCE AND PASSING THROUGH FRANCE.

The *British* rate on all Letters addressed to *France* and *Algeria*, or to countries *through France*, will be reduced to 5d. on a Letter *not exceeding Half an ounce* in weight, and the *French* rate on such Letters will be reduced to 5d. on a Letter *under the weight of a quarter of an ounce*, to whatever place in *France* or *Algeria* the Letter may be addressed, excepting however all Letters conveyed by *British* Packets in the *Mediterranean*, which will be liable to the *British Mediterranean rates* in addition to the above mentioned *British* rate of 5d. from England.

The *French transit* rate on Letters passing through *France* will also be reduced to 5d. on a Letter *under* the weight of a *quarter* of an ounce, but the other *Foreign Rates* will vary according to the limit to which the Letter may be paid.

All Letters addressed to *France*, or to countries through *France* (except to those countries hereafter mentioned to which the *British Rate* need only be paid), will be liable to both the *British* and *Foreign Rates* combined in the same manner as such combined rates are now charged on Letters paid to destination; for instance, a Letter *not exceeding half an ounce* is liable to one *British* rate, while a Letter *under a quarter of an ounce* is liable to one *Foreign* rate, and so in proportion, as shown in the following scale:—

		British Rates.	Foreign Rates.
A Letter under a.....	$\frac{1}{4}$ of an ounce..... is liable to...	1	and 1
„ weighing a.....	$\frac{1}{4}$ and not exceeding $\frac{1}{2}$ „	1	„ 2
„ exceeding.....	$\frac{1}{2}$ and under..... $\frac{3}{4}$ „	2	„ 3
„ weighing.....	$\frac{3}{4}$ and not exceeding 1 „	2	„ 4
„ exceeding.....	1 and under..... $1\frac{1}{4}$ „	4	„ 5

The *British* charge increasing *two rates of Postage* for every additional *ounce*, according to the scale of weight, for charging *Inland* Letters and the *Foreign* charge increasing *one rate of Postage* for every additional *quarter* of an ounce. It must be observed, however, that the *English* and *French* modes of charging by weight are dissimilar: a Letter *not* being liable to an increased *British* rate, unless it *exceed* the half ounce or

ounce, while an additional Foreign rate, is chargeable if it actually attain the quarter, half, three quarters of an ounce, or ounce, respectively.

Letters to *France* and *Algeria* must be either unpaid or have the whole of the Postage to destination, British and Foreign, paid in advance, as it will be no longer optional to pay the British rate only.

The *Postage through France* must be paid on Letters for *Spain* and *Portugal* (when addressed *via France*), and on Letters for *Sardinia*, and the *Southern States of Italy*.

The Postage on Letters for Southern Italy may be paid through *Sardinia* (viz. to the frontier towns of *Sardinia*, *Broni* or *Sarzanne*), as well as through *France*, and the Postage on Letters to *Sardinia* itself may be paid to destination in *Sardinia* as well as through *France*.

The following are the countries to which Letters may be sent by paying only the British rate of 5d. on Letters when not exceeding half an ounce, viz. :—

Turkey.	The Ionian Islands.	Germany.	} If specially addressed via France.
The Levant.	Austria.	Belgium.	
The Archipelago.	Venetian Lombardy.	Holland.	
Greece.	Switzerland.		

Letters for *Baden*, *Bavaria*, and certain parts of *Germany*, served by or forwarded through the office of the Prince of Tour and Taxis, may be sent *unpaid*, or *paid through France* or *paid to destination*.

Letters for the following places may be forwarded by the *French Mediterranean Packets* which leave *Marseilles* on the 1st, 11th, and 21st of each Month, either *unpaid* or *paid to destination*, viz. :—

Alexandria.	Greece.	The two Sicilies.
Constantinople.	Malta.	Smyrna.
The Dardanelles.	Papal States, or States of the Church.	Tuscany.

Letters intended to go by these Packets should be addressed “by *French Mediterranean Packet*.”

Letters for *Malta* and *Alexandria* may be also sent by the closed Mail on the 4th of each Month, either *unpaid* or *paid to destination*; but on Letters for the *Ionian Islands* and the *East Indies*, sent by such closed Mail, the *Postage must be prepaid*.

LETTERS FOR BRITISH COLONIES OR FOREIGN COUNTRIES BEYOND SEA, VIA FRANCE.

In addition to those countries and places on the Continent and in the Mediterranean, which have been already alluded to, Letters may be sent to any British Colony or Foreign Country beyond Sea from any Port in France, if specially so addressed. The charge on such Letters will be the British rate of 5d. on a Letter not exceeding half an ounce in weight, and a Foreign rate of 10d. under a quarter of an ounce, both which rates must always be paid in advance. It is advisable that the name of the Port in France from which it is wished that the Letter should be dispatched, and also, if possible, the name of the Vessel by which it is to be conveyed, should be stated on the address of the Letter.

REGISTERED LETTERS.

Registered Letters to France will continue to be sent under the same regulations as at present, and Registered Letters addressed to countries *through France* will be treated in like manner; that is, a Registration Fee of 1s. over and above all rates of Postage must be paid in advance, the British rate being the same as on other Letters similarly addressed, but not registered, but double the Foreign rates to destination, or to the utmost limit to which the Postage can be paid, to which an ordinary Letter would be liable, must be paid, and the whole of the Postage must be paid in advance.

NEWSPAPERS.

English Newspapers may be forwarded to France by Packet Free of Postage, or by Private Ship for One Penny each, and French Newspapers will be delivered in England for One Halfpenny each as at present.

On Newspapers to and from Spain, *via France*, the rate will be One Halfpenny each.

On Newspapers to and from Greece One Penny each, if forwarded by the *French Mediterranean Packets*.

On Newspapers forwarded by the *monthly closed Mail*, and not via *Falmouth*, or to and from the East Indies, Malta, or any other place in the Mediterranean, the rate will be 3d. each.

On Newspapers to and from all other countries, either on the Continent of Europe or beyond Sea, passing through France, the rate will be 2d. each. Prices Current and Commercial Lists duly stamped enjoy the same privilege as Newspapers.

PERIODICAL WORKS AND PARLIAMENTARY PROCEEDINGS.

Periodical Works, not strictly Newspapers, which are published as Pamphlets, and Parliamentary Proceedings, may be forwarded to France, *but to France only*, under the following regulations:—

- Firstly*, The Postage must be paid in advance.
- Secondly*, They must be sent in Covers open at the sides.
- Thirdly*, They must be printed in the English language.

The rates of Postage on such Works and Parliamentary Proceedings will be as follows:—

- Not exceeding two ounces in weight.....1d.
- Above two ounces and not exceeding three ounces.....6d.
- Above three ounces and not exceeding four ounces.....8d.

And 2d. for every additional ounce up to the weight of sixteen ounces, beyond which weight no publication can be forwarded.

The regular Mails will be dispatched as at present from Dover to Calais, but Ship-Letter Bags will be made up between the following places, viz. :—

- London and Boulogne. Dover and Boulogne. Brighton and Havre.
- London and Havre. Brighton and Dieppe. Southampton and Havre.
- Dover and Calais.

The above-mentioned Rates and Regulations apply equally to all Letters passing between England and France, whether forwarded by the regular Mail Packet or by Private Ship.

It must, however, be distinctly understood that all Letters will be forwarded by the regular Mail from London, *via* Dover and Calais, unless specially addressed by Private Ship, and unless the route is specified.

The following TABLE shows what Letters may be sent unpaid, and what are the lowest Rates on those Letters which require payment in advance in order to be forwarded.

MAIL-COACH ROUTES FROM EDINBURGH,

SHOWING THE ARRIVAL AND RETURN OF THE MAIL AT EACH OF THE UNDER-MENTIONED PLACES.

THE following LISTS will, it is hoped, be found of much importance to the Public, as showing the course of Post, and enabling persons to avail themselves of Mail Conveyances. A very trifling calculation will also enable them to ascertain the time of the Mail passing any of the intermediate places. The Third Column shows the time of the Mail passing, and the last that of its return to Edinburgh. The return of the London Mails is calculated by London time.

FIRE DEPARTMENT.

THE allowance of Ten per Cent, which has been made on the Premiums paid on Policies of Seven Years' standing, is the surest proof of the unprecedented success of this Institution.

LIFE DEPARTMENT.

Tables have been calculated expressly for this Institution, and, independent of a reduced rate of Premiums, as compared with other Offices having a Subscribed Capital, persons assured for the term of life will be entitled, at the end of every seven years, to one moiety of the Profits of the Company, after a deduction of such sum per annum for the guarantee of the Capital, as the Directors may think reasonable, the extent of which is, however, limited by the deed of settlement.

The share of the Profits to be so allowed to the Assured may be applied, either by adding to the amount of their respective Policies such reversionary sums as are equivalent to such profit, or in reduction of the Premiums thereafter to be payable on such Policies, provided such option be declared in writing within three calendar months after the division shall have been declared; but if such option be not so declared, such share of Profits will be added to the amount of the Policies.

The first division of profit to the Assured was made to Christmas 1828, and a second division of profit was made to Christmas 1835. At each period the Reversionary Bonuses added to the several Policies, averaged rather more than twenty-eight per cent on the amount of Premiums paid thereon during the preceding seven years.

If any person assured with this Company for seven years, or for life, should die within thirty days after the Premium should become due, such Assurance is to be valid in case the Premium be paid within such period of thirty days.

No additional Premium will be required from Military Men, unless when called into actual service. No charge will be made for Entrance-Money, Admission Fees, or for Policies beyond the cost of the Stamp.

THE following are among the advantages of this Society :—

1st. The security of an ample Assurance Fund, besides the subscribed Capital.

2dly. For young and middle-aged lives the LOWEST RATES OF PREMIUMS that entitle the Assured to participate in the profits.

3dly. Three-fourths of the profits divided every fifth year among those who have been Assured four years on the equal scale of premiums. The Bonus declared in 1834 averaged L.16 per cent on the Premiums then paid; and the Bonus awarded in 1839, on the average, is equal to L.31 per cent on the Premiums received during the last five years.

4thly. Assurers may have the Bonus applied to increase the sum assured, or in reduction of future Premiums, either for the remainder of life, or for the next five years only.

5thly. Policies granted without any charge to the Assured beyond the stamp-duty.

6thly. An option given to Assurers, on the increasing scale of rates, after the lapse of any number of years, to commute the future increasing Premium by an equivalent equal annual one for the remainder of life, and thereafter to participate in the profits. The same advantages are applicable to Assurers on the decreasing scale of rates.

7thly. Policies on the lives of parties dying by suicide, duelling, or by the hands of justice, not void as respects the interest of persons to whom they may have been legally assigned.

8thly. No extra charge for residence in any part of Europe, nor for proceeding (in a decked, sailing, or steam-vessel) from any one port thereof to another during peace, to Assurers not being seafaring men by profession. Licenses are granted to go to any part of the world, upon terms proportionate to the risks.

9thly. Whole Life Policies on the equal scale of Premium purchaseable after four years. Lapsed Policies revived on favourable terms to the Assured.

THE Aberdeen Assurance Company was established in 1825, by a numerous body of Proprietors, and is at present one of the wealthiest and most influential Companies carrying on business in the North of Scotland. As illustrative of the extent and success of the business it may be mentioned, that the Company has One Hundred and Sixty Agencies; and that the Shares are One Hundred and Fifty per cent above the original cost.

FIRE INSURANCE.

Ordinary Risks, such as Dwelling-Houses, Household Furniture, &c., are charged 1s. 6d. Hazardous Insurances, which comprehend Spirit Dealer's Stock Bakehouses, Oils, and the like, 2s. 6d. Doubly Hazardous Risks, such as thatched Buildings, China, Glass, &c. 4s. 6d. FARM STOCK is rated only at 2s. per cent., and no charge is made for the Policy, which, to Farmers, is an important saving upon small sums.

The Rates of the ABERDEEN ASSURANCE COMPANY for Lives are

LOWER THAN THOSE OF ANY OTHER OFFICE IN SCOTLAND;
 while the security afforded to the Policy Holders is undoubted.

[Continued.]

[*Aberdeen Fire and Life Assurance Company—Continued.*]

The Company grant Assurances under a variety of forms: that is, they have Tables calculated, showing the some ultimate results, but which may be used by persons Insuring according to their different circumstances. Thus—

Assurances may be effected for any limited time, or for the whole duration of life. The Premiums may be paid yearly, half-yearly, or quarterly. As it is often an object for many persons to pay off their Premiums within a certain time, instead of having them spread over every year during which they may live, tables are computed to show the amount to be paid in one payment, in 5, 10, 15, or 20 years: For example, a person, at the age of 25, may secure £2000 at death, by payment of £38, 1s. 8d. per annum during his life, or by payment of £157, 3s. 4d. for *five* years; £88, 13s. 4d. for *ten* years; £66, 18s. 4d. for *fifteen* years; or £56, 6s. 8d. for *twenty* years; the Premiums at the end of these periods absolutely ceasing. (See Table A.)

PARTICIPATION IN PROFITS.

To those desirous of participating in the Profits of the Company, while they are secured from all risk by its Capital, the moderate Premiums required, (See Table C.) and the GREAT prospective *advantages* which are certain to accrue, present inducements of the most substantial nature. The *whole Profits* resulting from this department will be divided among the Policy Holders, except a small proportion which the Directors will apply to the expense of management.

THE SUM ASSURED MAY BE MADE PAYABLE IN THE LIFETIME OF THE PARTY; thus a person aged 25 may secure £500, to be payable to him whenever he reaches 60, or to his representatives, should he predecease that age, by payment of £12, 17s. 1d. per annum. (See Table D.) The advantages which attend this last form of the contract of Insurance are too evident to require much illustration; but it may not be out of place to point out a few of them. It enables a Creditor in-uring his Debtor's life, in order to secure a past due debt, or a present advance of money, to calculate with certainty on recovering his debt, or receiving re-payment of his advance at a *fixed period*; and while, in so far as the assured himself is concerned, this system has all the advantages of the ordinary forms of Assurance, it possesses this peculiar feature, of enabling every one, however limited his income may be, by the appropriation of a portion of it yearly, during his years of health, strength, and active exertion, to provide for the support of *himself*, as well as those who may be dependent on him, during his declining years.

FAMILY SETTLEMENTS.

Assurance is most particularly advantageous in such matters, and may be made of great consequence to the Husband, where it is his desire to receive payment of his Wife's portion at Marriage, instead of having it vested in Trustees, to be applied at his decease for behoof of the family. By devoting part of his income to the payment of Premiums, this may be easily accomplished, or by having the sum assured made payable at the decease of either his wife or himself, he secures, at a small increased outlay, the chance of receiving the Insurance, in addition to the Marriage portion.

Assurances, at the same time, may be applied with equal benefit to persons in every grade of life, and to none more advantageously than to Professional Men, and Heirs of Entail; indeed, to all those whose Incomes cease with their existence.

LOANS are granted upon the Security of Life Policies, immediately upon their being effected; and to Heirs of Entail, upon the Security of the Rents of their Estates.

ANNUITIES.—It is to be regretted that, in many instances, Annuity Offices have commenced business with Tables which have not been calculated according to the actual rate of Mortality, and without having One Shilling of Capital to make good any deficiencies which may arise. Numerous Bankruptcies have, in consequence, happened. This Company offer to the public Annuities as high as the nature of their Investments will justify, while their subscribed Capital and large Sinking Fund afford a sufficient guarantee for the settlement of every claim. A Male, 50 years of age last birthday, would receive £7, 16s. 10d.; at 60, £9, 15s. 3d. per annum for every £100—while Females, at the same ages, would get £6, 17s. 8d., and £8, 8s. 9d. If the Annuity be payable half-yearly, a small deduction is made.

SURVIVORSHIP ANNUITIES are also granted on liberal terms.

ENDOWMENTS TO CHILDREN.—By setting aside the trifling Annual Premiums which are required, Parents secure for their sons sums sufficient to enable them to begin life—to their Daughters, Marriage Portions.

The Premium to secure £500 to a child under one year of age, when it arrives at 21, is £13, 15s. per annum. If the sum is to be paid at 18, it is £17, 13s. 4d. [Continued.]

This Joint Stock Company, established by Act of Parliament, without limited responsibility affords the most perfect Security in an ample paid-up Capital, and in the great success which has attended it since its commencement in 1834, and the large accumulation of Premiums which has taken place.

On the 1st of July 1841, the Company, at their General Meeting, declared an addition of one half to the Sums paid by the Stockholders, and appropriated to those holding Assurances at the participating rate L.2 per cent per Annum, from the dates of their policies, so that the addition to a policy for L.1000, in force for the previous 5 years, has been L.100, making it in all L.1,100. The Premiums payable to the Company are nevertheless very moderate, and only one half of them, when an Insurance is for life, need be paid for the first 5 years after the date of the policy; the other half, subject to the payment of interest at 5 per cent annually, to be deducted at death, or paid off at convenience. By this arrangement, it becomes easy for a person of moderate income to secure a provision for his family; and the policy may be relinquished on the acquisition of a fortune, within the 5 years, the Assured having paid only one half of the Premiums, instead of the whole, according to the usual practice.

Thus a person of 25 years old may, by an annual payment of L.28 : 16 : 3, for the first five years, and afterwards of the full premium, L.57 : 12 : 6, secure to his widow and children at his death payment of no less than L.3000, subject only to the deduction of L.144 : 1 : 3, being the amount of premiums unpaid. A person requiring a temporary advance of money may also, in terms of this arrangement, should he within 5 years relinquish the policy of Assurance by means of which he has obtained the advance, give it up on payment merely of one half of the Premiums instead of the whole, according to the usage of most other Offices.

The great facilities afforded by the Company, in these and other respects, are such that it really appears to be a moral duty in every parent who is not possessed of a fortune, but of an income, however moderate, to Insure his life for a sum which may yield a comfortable provision for his family.

LIFE DEPARTMENT.

A THIRD Valuation of the Company's Life Risks was completed in June 1838, and the Directors have great satisfaction in stating its results; the Tables annexed show the additions made to the Company's Life Policies. If parties will take the trouble of *comparing the Bonus* to which a Policy in this Office is entitled, with what would attach to a Policy of similar standing at other Offices, (a comparison that may very readily be made, as the printed Proposals of Assurance Companies generally show the amount of periodical additions,) it will be seen that such comparison is very favourable to this Company.

The Directors having recently had under their consideration the rates of Premium for Life Assurances, have determined to reduce them considerably for the younger ages, so far as they refer to Assurances made for shorter periods than the whole term of life. It is confidently trusted that this *reduction in the short term premiums* will be found highly useful to such parties as are obliged to insure their lives to perfect securities for temporary loans of money; inasmuch as the saving in the premium of Assurance will, in some cases, be nearly 15 per cent.

A RETURN OF PREMIUM for the five years ending at Christmas 1841, at the rate of 20 per cent, will be paid on policies for L.300 and upwards, then in force, and in proportion to the amount of premiums paid thereon during such five years; the Return will apply to all Policies which at Christmas 1841 had been in force for one entire year.

EQUIVALENT REDUCTIONS have been made in the future payments of premium, where the parties assured have desired to have the amount of surplus premiums so applied.

CONSTITUTION AND REGULATIONS.

THE DEED OF CONSTITUTION of this Association has been settled under the advice of the ablest legal authorities, both of England and Scotland, with the unanimous concurrence and assistance of the London and Edinburgh Boards, and with a regard to the law of both countries, which secures the interests of the assured residing in each. The English and Scotch systems of Assurance being thus incorporated in its Constitution, parties transacting with the Office in Scotland, while they are dealt with in every respect as if the Association were exclusively a NATIVE SCOTCH ESTABLISHMENT, have, at the same time, the important benefit of participating in the profits derived from the extensive business carried on in England.

ALL PROPOSALS MADE IN SCOTLAND are disposed of by the Edinburgh Directors, who meet every Monday, and by whom the Scotch Policies are subscribed and issued. CLAIMS FALLING DUE UNDER POLICIES are paid at the Office in Edinburgh three months after the death occurs, or, at the option of the Directors, upon satisfactory evidence, immediately on discount being allowed, the only title required being that prescribed by the law of Scotland.

LOANS.

PERSONS OF RESPECTABILITY and CHARACTER Assured in this Office FOR THE WHOLE TERM of Life, may obtain TEMPORARY LOANS upon approved PERSONAL SECURITY, or on the security of Assignable Property, or income of adequate value. Parties effecting temporary Loans on approved personal security, are put to no expense beyond outlay.

ANNUITIES.

ANNUITIES are granted, payable half-yearly or quarterly. The following is a specimen of the Rates where the Annuity is payable half-yearly, for every £100 paid to the Association:—

Age.....45	50	55	60	65	70
Rate...£6 12 4	£7 4 9	£8 4 6	£9 11 8	£11 1 9	£13 13 0

[*English and Scottish Law Life Assurance and Loan Association—Continued.*]

ENDOWMENTS.

ENDOWMENTS on the Lives of Children may be effected either by a Single or Annual Premium. Parties effecting Endowment Policies are allowed the full benefit of participation in the profits of the Institution. This Regulation affords every advantage of which the system of Endowments is capable.

THE Importance of LIFE ASSURANCE is now so well understood, that it is considered unnecessary to detail the many Benefits which it secures to all who take advantage of it.

The System adopted by this Company embraces every description of Insurance to meet the wants of parties. The rates have been calculated from the most approved Table of Mortality, and will be found *exceedingly moderate*. The investigations of the Company's business take place every seven years, when *four sixths of the profit* will be apportioned to each policy of five years' standing and upwards entitled to participate, and that according to the capital sum assured, and the number of years such policy has existed. One-sixth will be set aside as a guarantee fund for the Life Policy-holders, and eventually apportioned amongst those entitled to participate, the other sixth being added to the funds of the Company, in consideration of the Proprietors having pledged their subscribed and accumulated capital in addition to the profits of the Life department as a further guarantee to the Life-Policy holders. This Company does not profess to hold out Inducements to the Assured which cannot be realized; but acting on the principle of charging no more than a remunerating rate of premium for the risk run, it accommodates the Insured by accepting the premium in a variety of ways to meet their Convenience, and is not behind any respectable Establishment in making its policies as Serviceable to the holders as it is possible to do.

The following are a few of the advantages to be derived by persons insuring with this Company.

1. Perfect Security to the Assured.
2. Rates of Premium as low as is consistent with safety.
3. Premiums payable yearly, half-yearly, or quarterly.
4. Twenty-one days allowed for payment of the Premiums.
5. Liberty to the Assured to pass in time of peace from one part of Europe to another by sea or land, without payment of additional premium.
6. Loans granted on Security of Policies.
7. The Strictest Secrecy observed in all cases transacted with the Company.
8. Liberal allowances for the surrender of Policies.
9. Claims payable three months after death.
10. No Entrance-money charged.

PROFITS DIVIDED AMONGST THE POLICY-HOLDERS EVERY FIVE YEARS.

THIS COMPANY offers to the Public the security of AN AMPLE SUBSCRIBED CAPITAL as a GUARANTEED FUND against all contingencies, in combination with all the advantages resulting from *participating in the profits of the Company*, on the Mutual Insurance Principle.

Those joining the PARTICIPATION FUND have the Whole Profits of that Department divided among themselves, after deduction of a small per centage to assist in defraying the expense of management. Parties joining before the 31st October of any year will be entitled to participate in that year's additions.

A REDUCED Scale of Rates is adopted, favourable to those wishing to secure a certain sum at a cheaper rate, without sharing in the Profits of the Business. Those insuring by this plan have it in their option to *retain on credit one-half of the Annual Premium*, upon paying interest thereon in advance.

The Sum Insured may be made payable at SIXTY, or at Death, if it occur before that age.

Insurances are effected for *short periods*, and on Joint Lives and Survivorships.

Annuities and Endowments are also granted on liberal terms.

BRITANNIA LIFE ASSURANCE COMPANY,

No. 1, PRINCES STREET, BANK, LONDON;

AND No. 37, CASTLE STREET, EDINBURGH.

CAPITAL, L.1,000,000.

AMONG the advantages offered by this Company are:—

An ample subscribed Capital, invested in such a manner as always to be immediately available when the claims by death arise.

A most economical set of Tables—computed expressly for the use of this Institution, from authentic and complete data; and *presenting the lowest Rates of Assurance that can be offered without compromising the safety of the Institution.*

Increasing Rates of Premium on a new and remarkable plan, for securing loans or debts; *a less immediate payment being required on a Policy for the whole term of life than in any other Office.*

Policies effected by persons on their own lives not rendered void in case of death by duelling or by the hands of justice. In the event of suicide, if the Policy be assigned to a *bona fide* creditor, the sum assured paid without deduction: if not so assigned, the full amount of Premiums returned to the family of the Assured.

Policies revived without the exaction of a fine within twelve months, on the production of satisfactory evidence as to health, and payment of interest on the Premiums due.

Premiums may be paid either Annually, Half-yearly, or Quarterly, in one sum, or in a limited number of payments.

Age of the Assured in every case admitted in the Policy.

All claims payable within one month after proof of death.

All claims on Policies effected on the lives of persons resident in Scotland are payable at the office of the Edinburgh Agents, where all notices and citations regarding such Policies may be duly served—the Company for these purposes fixing the office of their Agents in Edinburgh as a legal domicile in Scotland.

ASYLUM FOREIGN & DOMESTIC LIFE OFFICE,

70, CORNHILL, & 5, WATERLOO PLACE, LONDON.

ESTABLISHED IN 1824.

“THE Asylum (says the Historical Sketch of the various Life Offices) was instituted for the express purpose of assuring deteriorated lives—lives rejected by other offices, and lives avowedly diseased. To this unprecedented but most useful business it was at first restricted; and the Philanthropist will say it ought to succeed.

“Soon after its establishment, this Office added to its original business the assurance of select lives on lower terms and under a greater variety of modes than any other Office; and by thus ringing changes on *equivalents*, holds out attractions well suited to the taste and circumstances of the public at the present day.”

THE following are among the advantages which this Company offers to the Public:

1st, Very low even rates of Premium, payable annually, half-yearly, or quarterly.

2dly, The facilities afforded to all classes of insurers, by having it in their power to adopt either an *even rate* for life, a choice of *ascending scales*, or a *descending scale*, as may suit the convenience of parties; or, further, an *alternative plan*, by which one-third of the premium (on policies effected for the whole of life at the *even rate*) may remain unpaid, and be deducted from the sum insured at the end of life, with interest at the rate of four per cent per annum.

3dly, The adaptation of the Tables to any service, or to any country in the world; and it will be found that in foreign Insurances also, the extra rates charged are considerably lower than those of other offices.

4thly, The Insurance of persons of advanced age, infirm health, or suffering from chronic disease, and the undertaking of risks that might be rejected by other offices, at moderate rates, deduced from very extensive and accurate observations.

5thly, The great facility afforded for the transfer of policies, the Directors, instead of requiring assignments of these to be executed, in every case issuing a new policy in name of the intended assignee, on surrendering the former, and merely paying the price of the new stamp.

The following are selected from the Even rates:—

Age.	Seven Years.	Whole Life.	Age.	Seven Years.	Whole Life.
20	L.0 17 1	L.1 11 9	40	L.1 10 8	L.2 17 1

FOR FIRE, LIVES, AND ANNUITIES.

LIFE DEPARTMENT.

THIS Company effect Life Insurances on equitable principles, with entire exemption from the liability of Partnership.

A large Capital, subscribed by the Proprietors, forms the security of the Assured.

The Premiums may be all paid at once, or in any given number of years, *in the option of the party making the Insurance*; a plan, the advantages of which are strikingly obvious, as it affords an opportunity of securing a certain provision, independent of all after risks from failure in paying the Premium, or of paying a larger Premium, while the means of doing so may be more at command; or the Premiums may be paid quarterly, half-yearly, or yearly, as may suit the convenience of those holding the Policies.

Each Policy for Life is entitled to share the surplus profits, which are declared every Seven Years.

All transactions in the Life Department are considered strictly confidential.

Prompt payment of Claims is made three months after proof of death.

The following rates of Insurance for single Lives are given as specimens from the Tables. The rates for *One and Seven Years*, and for the whole period of Life, without Profits, will, it is believed, be found, on *comparison*, very advantageous to the Public, while insurances for the whole period of Life, are equally so, if the benefit to be ultimately derived from a participation of the Profits be taken into account:—

Age.	Premium per cent for an Assurance for One Year.	Premium per cent for an Assurance for Seven Years.	Premium per cent for an Assurance for Life.	
			Without Profits.	With Profits.
20	£1 1 0	£1 4 2	£1 17 1	£2 3 7

FIRE DEPARTMENT.

INSURANCES of every description of Property effected at the usual rates, corresponding to the risk. The practice of this Company has been, for upwards of a century, to return the profits on Policies effected for Seven Years. Only *Six Years'* Premium and duty are charged, and the Government duty may be paid annually, or in one payment.

The stability and character of the LONDON UNION SOCIETY have been satisfactorily proved by the test of *upwards of a century*, during which long period claims have been invariably discharged with promptness and liberality.

ASSURANCES are effected by this Society, to the extent of L.5000, upon the same sole or joint or surviving Life or Lives, and are not confined to the profession of the Law, but are open to persons in every station of Life.

FOUR-FIFTHS of the Profits made by this Society will be appropriated to the persons assured for the whole term of Life.

On the 31st day of December 1847, and at the end of every Seven Years from that period, the profits divisible amongst the Assured, will be apportioned amongst such of the Assured for the whole term of life, as shall have been so assured for the space of three years or upwards, previously to those periods respectively, subject only to the reservation of such a sum of money as the Directors shall deem necessary to be carried forward, to the period of the next septennial division, for the benefit of the Assured. For the amounts which shall be so apportioned, equivalent reversionary sums will be added to the Policies respectively of those entitled.

The subjoined is a SPECIMEN TABLE OF BONUSES, in even pounds, added to Policies of L.1000 each, which have been in force seventeen years, ending 31st December 1840, including the Bonuses added on the former division.

[*Law Life Assurance Society—Continued.*]

If any person should wish to discontinue the payment of his annual Premium, the Directors have power either to purchase his Policy for a sum of money payable immediately, or, in consideration of its surrender, to grant a new policy, without any further annual Premium, for a sum to be agreed upon, payable at the decease of the Life assured. And the person to whom such new Policy is granted will be entitled, in respect thereof, to participate in the periodical divisions of the profits.

Persons who shall have been insured for the space of two years, in L.1000, or upwards, for the whole continuance of Life, have the power of electing, either from among the Proprietors or from among themselves, two of the four Auditors of the Society.

Parties may arrange to pay their premiums either in a single payment, by annual payments during the whole continuance of the Assurance, or by annual payments during a limited number of years only.

No entrance money is required; nor any extra Premium on persons in the Army or Navy, unless in actual service.

Assurances may be effected upon the lives of Persons residing at a distance from London, by their appearing before a Solicitor in the Country; and the payment of a fine for non-appearance at this Office is then dispensed with.

The assured are allowed to pass by sea from one part of the United Kingdom to another, and to and from the islands of Guernsey, Jersey, Alderney, Sark, and Man; and also, in time of peace, in queen's ships, and packet or passage vessels, to and from British and Foreign ports in the English Channel, between the Texel and Brest, both inclusive, without any special leave or license from the Directors.

The sums due on the Policies will be paid at the expiration of three months after proof of the requisite facts.

Assurances may be effected through any respectable Attorney or Solicitor in England, of whom Prospectuses may be had. A party may himself effect an Assurance by writing to the Actuary, or attending personally at the Society's Office in FLEET STREET.

The Assured are requested to take notice, that no renewal Premiums are ever received from themselves or their Agents, without printed receipts, signed by two Directors and the Actuary, being issued from this Office.

Attendance is given daily, from Nine o'clock in the morning till Four in the afternoon, at the Office, where the Terms of Assurance may be had, Proposals for effecting Assurances received, and every information respecting the Society obtained.

DEFERRED ANNUITIES DEPARTMENT.

By the plan exclusively developed by this Society, a Deferred Annuity combines and exceeds the benefits heretofore only obtained by separate investments in Savings Banks, Benefit Societies, and Loan Banks. A small yearly or weekly contribution will secure the most ample return for after life. Thus, L.2, 12s. per annum (1s. per week) at 20 will, at 65, give the policy-holder the choice of an Annuity for life of L.47, 16s. 6d.; L.394, 11s. in cash; or Policy, without further contribution, of L.466 at death. Other periods of life (of 50, 55, and 60) may be also taken, with similar advantages. Two-thirds payments lent at any time on deposit of Policy, and two-thirds returned in case of premature death.

The great advantages of the Society's "Loan Fund," particularly in the Deferred Annuity department, have been conspicuously manifested during the misfortunes of last year; many parties having availed themselves of its benefits to the preservation of Policies which would otherwise have lapsed, as well as to secure accommodation when it was most needed.

The Central Board for Scotland establishes Agencies in communication with itself, to whom Proposals are transmitted, by whom Policies issued, and Claims settled. Applications for Agencies to be made to, and Prospectuses, Reports, and information obtained from

At the Society's Fourth Annual Meeting, on 10th May 1843, the Directors' Report exhibited the continued success and steady progressive increase of the Association. Its Policies now amounting to 2145.

The Directors having also made an investigation, the result enabled them, after appropriating a sufficient sum in extinction of preliminary expenses, to recommend a Bonus to the Policy-holders. This Bonus is equal to 55 per cent on Annual Premiums as a reversionary addition to the Policy—17½ per cent. in Present Cash, or 10 per cent. Permanent Annual Reduction on future premiums. The following examples will suffice to explain this:—

Date of Entry.	Number of Policy.	Age.	Sum Assured.	Annual Premium.	Bonus in addition to Sum Assured.	Bonus in Cash.	Permanent Reduction of Annual Premium.
			£	£ s. d.	£ s. d.	£ s. d.	£ s. d.

1838	114	56	3000	175 15 0	296 9 7	123 0 6	16 9 7

The sums already paid on Policies amount to L.21,018, 18s., being on 32 Policies. The Bonus to the Proprietors is nearly equal to seven and a half on the Stock invested.

THE system of Life Insurance in this Country has assumed such importance, that to enlarge on its advantages would be altogether superfluous. The British Public have, happily, been long familiar with a scheme, which, by a small annual sacrifice, secures from poverty the children and relatives of persons whose incomes are wholly or chiefly dependent on their lives;—which is capable of a very useful application to marriage settlements;—and which is eminently calculated to give stability to a vast variety of important transactions. It is not wonderful, that a plan, which embraces so many beneficial objects, should have powerfully engaged the public attention, and mixed itself, widely and intimately, with the whole business of life.

The PELICAN LIFE INSURANCE COMPANY has, for upwards of forty years, held a distinguished rank among the numerous establishments connected with these great purposes. The confidence the Directors have so long enjoyed they are naturally ambitious to retain. They have accordingly instituted a careful enquiry into the business of the office since the establishment of the Company in 1797, and, principally upon this experience, they have constructed an entirely new table of rates, which they now submit to the Public.

In addition to the table already alluded to, which offers as low a rate of premium as the Directors believe to be consistent with the security of the assured, they have, in consequence of the strong bias manifested by the public to the system of a return of premium or addition to the policy, constructed another table at a somewhat higher rate of premium; the assurers under which will form a distinct branch of the Company's business, to commence from the 3d day of July 1840;—and the Directors propose *thenceforth* at the end of every seven years, after a valuation of the outstanding risk in this class, and after a reasonable deduction for charges and management, to return to the then holders of policies, *on this scale* of premium, not less than a moiety of any surplus that may then appear, to be ascertained and apportioned by the Directors; and, thereupon, the holders of policies for whole life which have been in force for that period, shall, at the option of the assured, (to be declared at the time of effecting the insurance,) be entitled to have the sum, that at each septennial valuation may be appropriated to their respective policies, applied according to either of the rules following, viz:—

- 1st, BY AN IMMEDIATE PAYMENT OF THE SUM SO APPROPRIATED; OR,
- 2dly, BY AN EQUIVALENT REDUCTION IN THE FUTURE ANNUAL PREMIUMS; OR,
- 3dly, BY AN EQUIVALENT ADDITION TO THE AMOUNT OF THE POLICY, (AND PAYABLE THEREWITH.)

The PELICAN LIFE INSURANCE COMPANY insure, on equitable terms, the lives of persons resident abroad, or about to proceed to foreign climates; and, in this department, the PELICAN OFFICE presents great advantages to officers of the Army and Navy, as no extra charge is made for home service. The moderate addition required from such individuals, for change of climate, may be covered by an average rate, or the rate for any particular destination may be made the matter of special agreement, on taking out the policy; the Insurer paying only the home premium until the contingency contemplated shall happen. In this respect, therefore, the PELICAN OFFICE offers an advantage that recommends itself, equally to persons assuring their own lives, and to solicitors, agents, and others, whose object is indemnity.—The Directors are, at all times, willing to purchase policies on the most liberal terms—an arrangement obviously desirable, when the object of an Insurance has been effected.

FOUR-FIFTHS of the PROFITS made by this Company will be appropriated to Policies every FIVE YEARS, without the Insured incurring the personal responsibility attached to Mutual Societies.

THE IMPERIAL LIFE INSURANCE COMPANY was established by a Deed of Settlement, dated the 28th November 1820, by which Two-Thirds of the Profits were to be added to Policies for the whole term of Life, at the end of every Ten Years. The first of these decennial appropriations was made in the year 1831, and the second in 1841.

Additions to Policies.—The Additions made to Policies of 'Twenty Years' standing on the 31st of January 1841, were *Thirty-five per cent on the Sums Insured.*

Reduction of Premium.—If the additions on Policies of 'Twenty Years' standing on the 31st of January 1841, are surrendered, the Insured will be entitled to a reduction of the future Annual Premiums for the remainder of life, varying in extent from *Seventy-seven to Thirty-eight per cent*, according to the age of the life insured; and future additions, if surrendered, will entitle the Insured to further reductions until the Premiums entirely cease, after which the future Share of Profits will be added to the Policy, or the value of such additions paid in Cash.

Increased Share of Profits.—Under the Provisions of a Special Act of Parliament obtained by the Company, (4 and 5 Victoria, cap. 94,) it has been resolved to appropriate *Four-fifths* instead of Two-thirds of the disposable Profits as a Reversionary Bonus to Policies which may be issued after the 4th of January 1842, and which shall be in force at the end of every *Five Years*, from the 31st of January 1841; such Bonus to be in proportion to the Amount which the Company would have to pay at the death of the person whose life is insured, and to the number of Annual Premiums paid on the Policy subsequent to the then last appropriation of Profits. A surrender of such reversionary Bonus will entitle the parties to a reduction or extinction of future Premiums; or the value thereof will be paid in Cash, or applied in such

other manner as may best suit the convenience of the Insured, and may be specially agreed upon.

Purchase of Policies.—If any person should become desirous of discontinuing an Insurance effected at this Office, for the whole term of life, the Company will purchase the Interest in such Policy at a fair value.

Loans on Policies.—The Directors will advance Money on Loan on the Security of Policies effected with this Company, for the whole term of life.

Insurances without Participation in Profits.—Policies of every description may be effected with the Company without Participation in Profits, at considerably reduced Rates of Premium.

The Regulations of the Company and its Conditions of Insurance will be found to embrace all the important advantages offered by other firmly established Companies.

Attendance daily, from Ten till Four o'Clock, at the Offices in Sun-Court, Cornhill, and St James's Street, where detailed Prospectuses may be had, or of any of the Company's Agents in the principal Towns throughout the Kingdom.

Scottish Widows' Fund and Life Assurance—Continued.

THE large accumulated Capital and Annual Revenue of this Institution, (which, as a Life Assurance Association, is the oldest and most extensive in point of business in Scotland,) enables the Directors to offer to the Public the full advantages arising from the principle of its constitution, combined with the utmost measure of security.

The accumulated Fund now amounts to upwards of ONE MILLION, TWO HUNDRED AND SEVENTY-FIVE THOUSAND POUNDS STERLING, and the annual Revenue to more than TWO HUNDRED THOUSAND POUNDS STERLING *per annum*, and both are in a state of steady and rapid increase.

The last periodical investigation of the Society's affairs took place at 31st December 1838, when large additions were declared to the Assurances entitled thereto. By way of illustration of these, the following particulars are given of the claim arising under a Policy opened in the year 1820, if emerging by the death of the party Assured, after payment of his Premium for the current year:—

Sum originally Assured,	£3000	0	0
Vested Additions up to 31st December 1831,	£540	0	0
Do. do. 1838,	495	12	0
Contingent Prospective Additions applicable to the years 1839 and 1843, inclusive, being nearly 2 $\frac{3}{4}$ per cent, per annum, on the original Assurance,	403	11	3
		1439	3 3
Total sum payable,	£4439	3	3

The Ordinary Court of Directors meet weekly for the purpose of receiving and deciding on applications for Assurance, which are now granted to the extent of £5000 on approved single or joint Lives.

[*Scottish Union Fire and Life Insurance Company—Continued.*]

FIRE DEPARTMENT.

THIS extensive Company, with a Subscribed Capital of FIVE MILLIONS STERLING, divided among 5,000 Proprietors was established in 1824—the great conflagrations of that year having led the Public to found a National Institution upon a wide and substantial basis. It appears from the last Government Returns, that property has been assured with this Company against Fire, last year, to the extent of upwards of SIXTEEN MILLIONS OF POUNDS STERLING, which large amount, exceeding that of *Seven* other Scottish Companies *taken together*, sufficiently proves the high estimation in which this Establishment is held by the public.

Losses by Fire, when satisfactorily ascertained, are IMMEDIATELY PAID; and the Directors can with confidence appeal to *Several Thousand* individuals who have from time to time obtained from this Company the most satisfactory remuneration for their accidental losses.

The rates of Premium are very moderate, being only *One Shilling and Sixpence* per cent on ordinary risks.

LIFE DEPARTMENT.

PROFIT FUND.—Two-Thirds of the Profits are allotted at regular periods to the insured *without being subject to any deduction for charges of Management*; additions are made to Policies, or corresponding reductions of Premium, at the option of the Insured.

THE BONUS declared at the first division of Life Profits averaged no less than *Fourteen* per cent, or *Two* per cent per annum, and was allotted to the assured on the most **EQUITABLE PRINCIPLES**. The additions made to a Policy for L.1000 of seven years standing are as follows:—

Age when Assured under	Additions.			Total Sum now payable.		
	£	s.	d.	£	s.	d.
30	133	7	6	1133	7	6
35	135	19	0	1135	19	0
40	138	15	6	1138	15	6
45	142	9	0	1142	9	0
50	148	17	6	1148	17	6

Parties now effecting Policies will derive the important advantage of participating in the *Profits of the next Four Years*.

REDUCED RATES—NO PROFITS.—To facilitate Loan Transactions, a reduced scale of rates has been adopted, which will be found particularly favourable to the Insured, more especially for young and middle-aged persons.

LOANS.—The Directors are ready to make advances by way of Loan, on the following securities:—1st., On Policies of Insurance on Lives to the extent of their estimated value; 2d., On such Policies, with the addition of personal security for payment of the future premiums and interest.

Proposals, with Tables of Rates, explanatory of the various modes of Assurance, may be had at the above Offices, and from the Agents of the Company throughout the United Kingdom.

[*The Minerva Life Assurance Company—Continued.*]

THE distinguishing features of this Company are moderate rates of Premium, with participation of the profits every five years, to the extent of four-fifths or 80 per cent. A strict investigation of the affairs of the Company has been made for the five years ending 31st December, 1841, and of the profits thereby ascertained to have accrued, four-fifths have been apportioned among the assured of one or more years standing, in proportion to the premiums paid by each; and appropriated (in terms of the constitution of the Company) at the option of the Assured, either as Reversionary Bonus, payable when the Policy becomes a claim, or its value applied to the reduction of subsequent Premiums. THE REVERSIONARY BONUS averages 31 PER CENT. on the Premiums paid during the last five years. THE EQUIVALENT REDUCTION OF PREMIUM averages nearly 17 PER CENT. on the Annual Premiums payable during the next five years. It is worthy of notice, that the profits of the Life Assurance Fund are not subject to any diminution from payment of interest to Proprietors.

The Premiums for Assurances on single and on joint lives, survivorships, or other contingencies, may be known by application to

THE TERMS and CONDITIONS of this INCORPORATION are much more favourable than those of any other similar Institution in Scotland. THREE-FOURTHS of the ENTIRE PROFITS of the BUSINESS, without any reservation, are septennially divided amongst the Policy-holders.

A RETURN of TWENTY PER CENT was made on the Premiums received during the seven years from Candlemas 1832 to Candlemas 1839; and the Return was not confined to Insurance of seven years' duration, but was made ON THE WHOLE AMOUNT OF PREMIUMS received during all or any part of that period.

The Reduced Rates of Premium are charged—losses are settled with promptitude and liberality—the damage and expense attending the removal of property on alarms of fire are paid by the Company—and losses by lightning are made good to the assured. No expense attends the Transfer of Policies from other Offices.

LIFE DEPARTMENT.

THIS COMPANY has lately extended its business to Life Assurance, in conformity with the unanimous resolution of a General Meeting of the Proprietors, held on 6th February, 1843.

The following are some of the leading features and advantages of the system adopted:—

1. The possession of a large SUBSCRIBED CAPITAL sufficient to guarantee fulfilment of all the engagements of the Company.
2. ASSURANCES undertaken either on the principle of PARTICIPATION or of NON-PARTICIPATION in the Profits.
3. PREMIUMS for both classes generally lower than those of other Offices, and payable either yearly, half-yearly, or quarterly.
4. ANNUAL INVESTIGATIONS and ASCERTAINMENT of profits commencing at Whitsunday 1851; the amount of profit to be annually allocated amongst those entitled to participate, being determined according to the ascertained average of the preceding eight years.
5. ALL POLICIES in the PARTICIPATION CLASS in existence at the period of any investigation, entitled to share in not less than four-fifths of the profits arising on that branch of business, without further reservation either for Expenses or for a Guarantee Fund, the latter being otherwise provided for by the Capital of the Company.
6. LOANS on sufficient personal or other security, granted to parties assuring with the Company.
7. SUBSTITUTION of LIVES admitted, where parties are desirous of discontinuing their assurances, thus enabling them to transfer with advantage to themselves, or to the parties with whom they transact, those benefits which may have accrued on their own Policies.
8. No charge for Entry Money or otherwise, except the Policy Stamp.
9. Claims paid within three months after proof of death.

The subjoined Specimen of the Table of Premiums required for the Assurance of £100, payable at death, with or without participation in profits, will show the peculiarly liberal terms which are now offered to Assurers.

*** The Premiums may be paid either yearly, half-yearly, or quarterly.

ASSURANCES on Joint Lives and Survivorships, and in all the other usual Forms, are granted on equally favourable terms.

FIRE DEPARTMENT.

THREE-FOURTHS OF THE FREE PROFITS (after laying aside a sum for a Guarantee Fund,) are divisible every five years, among the then existing Policies of two or more years' standing.

WHILE THE RATES OF PREMIUM ARE NOT GREATER than those of other Scottish Offices, which do not admit the Insured to participate.

*** No charge is made for Policy Stamp when the sum insured amounts to £500, nor in case of transfers from other Offices.

Copies of the detailed Prospectus, with Forms of Proposals, and all other necessary information, in regard either to Fire or Life Insurance, may be obtained at the Head Office, or at any of the Company's Agencies.

MUTUAL ASSURANCE, COMBINED WITH MODERATE PREMIUMS,

"If the Premiums were really too low, Capital would be an injury, and not a benefit, for, since this Capital is really paid for, in whole or in part, out of Premiums, it would not preserve the office from insolvency, but would rather accelerate its progress towards bankruptcy."—*Essay on Probabilities, by Professor De Morgan.*

THE SCOTTISH PROVIDENT INSTITUTION,

FOR ASSURANCES AND ANNUITIES ON LIVES,

EDINBURGH, No. 14, ST ANDREW SQUARE.

THE ONLY OFFICE IN WHICH MUTUAL ASSURANCE IS COMBINED WITH MODERATE PREMIUMS.

INTENDING ASSURERS are requested to examine the provisions of this Association. The Directors continue frequently to receive proposals from parties who had assured with other offices, without due consideration, and who find they will even now be gainers by surrendering their Policies, and opening new ones in this Office.

AS COMPARED WITH PROPRIETARY OFFICES:—

This Institution possesses (in common with other Mutual Offices) this essential advantage, THAT THE WHOLE PROFITS BELONG TO, AND ARE DIVISIBLE AMONG, THE POLICY-HOLDERS; while the Premiums are at the same time as low as by the *Non-participating* scale of any of these offices. The large dividends drawn by their shareholders sufficiently prove how important it is that the Profits should be secured to the assured themselves. The following, again, are its advantages,

AS COMPARED WITH OTHER MUTUAL OFFICES:—

1st, PREMIUMS AT EARLY AND MIDDLE AGES ABOUT A FOURTH LOWER.

2d, A MORE ACCURATE ADJUSTMENT OF THE RATES OF PREMIUM TO THE SEVERAL AGES.

3d, A PRINCIPLE IN THE DIVISION OF THE SURPLUS MORE SAFE, EQUITABLE, AND FAVOURABLE TO GOOD LIVES. AND,

4th, EXEMPTION FROM ENTRY-MONEY.

The *first* of these requires no comment. The advantage of receiving at once, for the same premium, a Policy for **£1.1250**, instead of one for **£1.1000**, is sufficiently obvious.

The *second* point, although not so obvious, is yet one of primary importance, as will be evident from a single illustration. The Premium charged in these offices at age 60 is actually lower than in this, while a member of 30 or 40 is called on to pay between 20 and 25 per cent more. There is thus a great injustice done to the younger members, for, as all receive the same proportionate amount of Bonus, a part of the overcharge on their premiums must obviously go to make up the comparative deficiency of those of the old.

The principle of Distribution referred to in the *third* head, is,—*That the Surplus is reserved entire for those members who survive the period at which their premiums, with accumulated interest, amount to the sums assured, and is thereafter divisible according to the values of the several Policies, and not by a fixed percentage to all.*

By the practice of the other offices, a member dying in six or eight years after entry, will carry off, not only the original sum in his Policy, but a further sum in name of *profit*, although the premiums which he has lived to pay will not amount to one-fourth of his original assurance. These sums should rightfully have belonged to the surviving members, from whose long continued payments they are drawn.

In this Office, accordingly, they are reserved and accumulated for the benefit of the survivors; and the surplus being thus divided among a comparatively small number, the share or bonus, falling to each, will necessarily be much greater than by the usual mode.

Examples of Annual Premium to assure £100^a at death.

Age,	20	25	30	35	40	45	50
Premiums,	£1 15 8	£1 18 0	£2 1 6	£2 6 10	£2 14 9	£3 5 9	£4 1 7

The Premium may be made to cease after twenty-one, or any other number of payments. The Premium, (for £100,) payable for twenty-one years only, is at age 30, £2, 14s. 6d.—age 35, £2, 19s. 8d.—age 40, £3, 6s. 4d., being almost the same as other offices require for the whole term of life.

THIS Institution was founded for the purpose of securing Provisions payable DURING LIFE. This object is effected by the Mutual Contributions of Members to schemes opened in each year, to be divided respectively at the end of certain fixed periods amongst the *survivors* of each scheme. By thus combining the advantages of SURVIVORSHIP LIFE ASSURANCE with the improvement of money by judicious investments, this Society presents the most advantageous method of providing for any contingent event.

The leading objects of the Society are—

1st, To SECURE A FUND FOR AFTER LIFE. That this can be effected by means of this Society upon terms more advantageous than are offered by any other institution, will be seen from the following illustrations:—If a professional man, at the age of twenty-five, secure ten shares in a scheme, the funds of which will be divided at the end of twenty-five years, he will, in the event of the Society progressing as favourably as hitherto, receive, at the age of fifty, such a sum as would purchase a Government annuity of £108; whilst the same annual contribution, if paid to a respectable Assurance Company, would secure a deferred annuity, to commence at the same age, of only L.67, 12s. Or, again, if the same party were to join the thirty years' scheme, he could, for the trifling contribution of L.16, 0s. 10d., secure such a sum as would, at the age of fifty-five, purchase a Government annuity of L.135; whilst, for a similar premium, an Assurance Company would secure him a deferred annuity of only L.74, 15s. Such advantages as these this Society is enabled to offer, as it has been established for the express purpose of transacting this department of business only, on the most favourable terms, and not to realize profits to be distributed amongst a body of proprietors, or amongst a class of Assurers having separate rights or interests.

2d, To SECURE PROVISIONS FOR CHILDREN. By payment of the trifling sum of L.3, 8s. 10d. a year upon the life of a Child aged one, there will, in the event of the Society progressing as hitherto, and calculated according to the Government Tables of Mortality, be payable to the Child on its attaining the age of twenty-one, a sum exceeding L.120. Parents are thus enabled, with advantage, to set apart a small specific sum from the income of each year for the purpose of providing for their families; and by careful investments, combined with the benefits accruing through the death of other Members, a fund is accumulated greater than private individuals could succeed in realizing by laying aside their annual savings; whilst in the event of the benefit lapsing, in consequence of the pre-decease of the child, the object for which the fund was in the course of being provided no longer exists. On the other hand, should the parent die, and it be found inconvenient to continue the annual contributions, the benefit of those already paid is not thereby lost, but by an equitable arrangement provided in the Deed of Constitution, the value of the past contributions is ascertained according to a fixed rule therein laid down, and the Child, on surviving the period of division, will be entitled to the corresponding share of the fund.

This peculiar feature renders this Society the most advisable medium for securing provisions to the YOUNGER CHILDREN OF LANDED PROPRIETORS, and to the FAMILIES of those engaged in PROFESSIONAL OR MERCANTILE PURSUITS, and generally of all whose incomes are dependent on their life or health.

Detailed Prospectuses, containing Specimen Tables of the Rates of Contribution, and all information, may be obtained, on applying at the Head Office, or any of the Agencies.

THIS Company was instituted exclusively for the purchase, by a present advance, of Reversionary Rights—absolute or contingent—Annuities or Liferent Interests—Policies of Assurance on Lives—Shares in Government and Private Tontines—and in general of all rights extending over Property, Funded or Real, or otherwise well secured—the emergence, or term of payment of which is future, or depends upon some contingency of life or survivorship.

Every man of business must have found, in the course of his experience, much difficulty in securing or realizing those rights belonging to his Clients, which, among the manifold relations of society and individuals, now so frequently arise, under Contracts of Marriage—Entails—and other Destinations, Family Settlements, and similar Deeds, where limited rights of Liferent and Fee, depending in many cases on complicated contingencies, are secured to Parties having separate and frequently conflicting interests.

It sometimes happens, also, that parties who have the undoubted right of succession to valuable property at some future period, may, from various causes, be at present in great want of Funds. To such parties this Company would give a present advance, or an Annuity till such time as their right of succession open, in consideration of part of the property to be succeeded to being conveyed to it.

To others, again, who are engaged in Trade, going abroad, &c., it may be of importance to realize just now the value of Provisions or Legacies of which they cannot receive payment at present, owing to their being liferented, or from other causes:—or they may wish to receive a Capital sum in place of an Annuity payable to them. From such parties this Company will purchase, by a present payment, rights to Provisions, Legacies, or Annuities.

The great advantage attending such Companies as the **NORTHERN REVERSION COMPANY** is, that having numerous transactions in Reversionary Properties, it is able to apply to all the accurate observations which have now been made on the duration of human life, and thus to give the true value of any reversionary or liferent right; while parties having such rights to dispose of, and wishing to realize their fair marketable value, have the means of doing so afforded to them through the medium of this Company, without undergoing the publicity, expense, and delay, and very frequently the disappointment, attending a Public Sale.

Forms adapted to various Cases have been prepared for enabling Parties, or their Agents, to tender proposals of sale; and the Manager will give every information to parties wishing to transact with the Company.

EDINBURGH—No. 3, GEORGE STREET.

GLASGOW—No. 35, VINCENT PLACE.

ADDRESS BY THE DIRECTORS.—1842.

THE progress of the Company during the past year, both as regards the new business acquired, and the result of the period generally, exhibits evidence of success and prosperity so particularly marked, that the Directors consider it their duty to make it known to all those connected with the Institution, and to call public attention to the prosperous state of the Company's affairs—satisfied that an extended knowledge of the principles upon which the Institution is founded, its security, its advantages of Division of Profits, and its liberal management, is alone requisite, to induce greater numbers to avail themselves of its benefits, and to make its future advancement still more remarkable.

The following are a few of the most prominent points brought under notice at the Annual General Meeting of the Company held on the 15th December, 1842.

1. New Assurances have been opened with the Company to a very large amount, exceeding greatly the results of *any* former year's business.
2. The number of new Policies has increased in an equal proportion, showing that the increase of business does not arise from large transactions swelling up the results.
3. The increase of sums assured, and Policies, compared with the year ending 15th November, 1841, is above 25 per cent upon each.
4. The Company continue to draw a high rate of interest on all their Investments; and their Funds, which are rapidly accumulating, are most satisfactorily invested, being for the greater part secured upon heritable property in Scotland.
5. The mortality of the year has been very limited, being very much below the calculated expectation—thus evincing the care which has been bestowed by the Directors in the selection of the lives.
6. The business of the Company is conducted with economy, but at the same time so as to secure efficient management; and the expenses form a very small per centage upon the Annual Revenue.
7. The Company's books and accounts are kept in the most accurate manner; and in corroboration of this statement, the Directors have much pleasure in submitting the following extract from the Report by the Company's auditor, Mr KERR, after a careful investigation of the books and accounts of the Company for the last year:—

"I have much pleasure in reporting, that the whole books, accounts, and vouchers, relative to the affairs of the Company, continue to be kept in a most regular, distinct, and satisfactory manner, and reflect great credit on the Manager and other officers of the Company, for the clear and accurate way in which a record is kept of transactions of so great and increasing magnitude and detail as those of the Company."

The satisfactory results which have now been mentioned were subject of much congratulation at the General Meeting; and the Chairman, in shortly going over the rise and progress of the Institution, specially called the attention of the meeting to the fact, that the Annual Revenue of the Company had increased fourfold since the year 1834, and had been doubled within the last four years—the increase in the Company's Funds having at the same time kept pace with the increase of the Revenue.

The proceedings of this meeting otherwise were highly satisfactory.

[Continued.]

[Standard Life Assurance Company—Continued.]

THE STANDARD LIFE ASSURANCE COMPANY

is one of the oldest, most extensive, and most successful of the Scottish Life Assurance Offices.

THE SECURITY

which it affords is undoubted, and the greater portion of its large accumulated Capital is invested upon the security of Heritable Property in Scotland.

THE RATES OF PREMIUM

are moderately and fairly adjusted, and are so regulated as to avoid the high charges of the old system for the Participation Scale, on the one hand, while, on the other, the rate for Assurance of a certain fixed sum without Profits, is calculated upon as close an approximation to the actual mortality as it would be prudent to assume.

DIVISION OF PROFITS.

The Divisions are made at intervals of five years, and the greatest advantages are derived by those Assurers who continue steadily to uphold their Policies. Other institutions may be able to show a larger Bonus at the end of the first few years from the commencement of Assurances; but the advantage held out by this Company is not a large increase of the sums assured to those who are otherwise the heaviest claimants—those who die early, but to those who are best entitled to it—the parties paying the greatest number of Premiums.

The nature of Assurance with profits in the STANDARD LIFE ASSURANCE COMPANY, may be described in a very few words:—

AS REGARDS THE PRINCIPAL SUM ASSURED.—It is secure and certain, not being subject to the risks of mutual Assurance, and being guaranteed by the Company's protecting Capital.

AS REGARDS THE DIVISION OF PROFITS.—The principle adopted may be said to be *TONTINE*, the Policy-holder claiming upon the Divisible Fund at each Division, according to the amount of his Policy, and the number of years his Assurance has existed.

This principle of division is similar to that which has been so successfully acted upon by the

EQUITABLE SOCIETY OF LONDON,

IN THE CASE OF ITS *privileged* POLICY-HOLDERS.

The Vested Additions to Policies already made by the Standard Life Assurance Company, proceeding upon this principle, are as follows:—

1837	1000	50	1050

[Continued.]

[*Standard Life Assurance Company—Continued.*]

It will be perceived that the STANDARD LIFE ASSURANCE COMPANY have already divided Profits at two periods, viz., November, 1835, and November 1840. The future divisions fall to be made at intervals of five years, the next being in November, 1845.

All Persons now joining the Company's Participation Scheme
will participate in that Division, and in future Divisions, in the following manner:—

Claims for Profits, according to the number of years the Policy has existed, calculating from its date at each period.

1845	1850	1855	1860	1865	1870	1875
3	8	13	18	23	28	33

and so on, increasing at each period.

That is, a party in the Division of 1845, will have a claim for an addition to his Policy corresponding to three years; in the Division of 1850, for an addition corresponding to eight years; in 1855, for thirteen years; and so on, increasing at each quinquennial period.

It is evident that no other mode of Division affords the prospect of so much benefit to all who propose to uphold their Policies during the whole of life. The STANDARD OFFICE is therefore particularly eligible for all persons assuring for Family Provisions, and in an especial manner for those who, from their occupations, or strong natural constitution, have more than an ordinary expectation of longevity.

THE GENERAL REGULATIONS AND CONDITIONS

of the STANDARD have been framed upon principles of fairness and liberality, so as to encourage Assurances among all classes of the community.

THE VERY GREAT SUCCESS of this Company since its establishment may be attributed, among other causes,—1st, To the acknowledged *advantages* afforded by its *different plans of Assurance*; 2d, To the *complete Security* afforded by the Subscribed Capital of a large and influential Proprietary; 3d, To the *amount of Business* secured from that Proprietary, *independent of every other source*; 4th, To the *adoption of Premiums* calculated at *moderate* and yet *perfectly safe* Rates; and, 5th, To the principle of an *annual Division* of the Company's profits.

Parties may assure on the plan of PARTICIPATION IN THE PROFITS of the Company, and secure every advantage to be had in a Mutual Assurance Society, *without the smallest risk or responsibility.* Or,

They have the option of assuring at the LOWEST SAFE rate of Premium, if they wish merely to secure a certain fixed sum at the most favourable per centage, whether *in connexion with Loans* or otherwise.

Assurers are allowed to adopt ANY PLAN IN THE PAYMENT OF THE PREMIUM most convenient for themselves.

In the *distribution of Profits* they have the great and well-known advantage of **EARLY CONNECTING THEMSELVES** with a Company established within the last few years, which has not yet made a Division of Profits, and which has already secured a very large and increasing business.

Every advantage will be given to Assurers in the *negotiation of Loans*, by Redeemable Annuity, or otherwise.

To Parties proceeding abroad, beyond the limits of Europe, **EVERY FACILITY IN THE OBTAINING OF LICENSE** will be afforded at *rates properly graduated to the risk.*

No Admission Fee is charged at Entry; and there is no additional expense whatever to Assurers, except the Policy Stamp.

In all respects, the Company's Business is conducted in such a way **AS TO AFFORD EVERY FACILITY AND ENCOURAGEMENT** which can be offered for the extension of Life Assurance.

LIFE SOCIETY,
INSTITUTED 1808.
CAPITAL INVESTED, £1,700,000.

THIS SOCIETY is founded on the Equitable Principle of MUTUAL ASSURANCE, and has been established for a PERIOD of THIRTY-FIVE YEARS. All just Claims upon its Funds have been promptly and liberally settled. Nearly TWO MILLIONS FIVE HUNDRED THOUSAND POUNDS have been thus paid away on Expired Policies; and to meet the existing Engagements of the Institution it possesses Funds amounting to upwards of a MILLION AND THREE QUARTERS, almost wholly invested in Real and Government Securities.

The RATES of PREMIUM FOR AGES UNDER 45 YEARS, are nearly *one-tenth* below those of the Older Offices; from *Forty-five* to *Sixty*, the Rates of those Offices are only gradually approached.

The WHOLE SURPLUS PROFITS of the SOCIETY are the Property of the Members insured for the whole duration of Life, and are added to their Policies septennially, by a per centage on the amount of Premium they have respectively contributed.

In illustration of the advantages arising to Insurers from this mode of dividing the Profits, there is subjoined, from the Office Books, a list of some of the existing Policies, showing the Sum originally Insured, and the amount of Bonus Addition to each Policy as at 9th September, 1842, the date of the last Division.

FIRE SOCIETY,
INSTITUTED 1797.—CAPITAL, £550,000.

THE SUMS INSURED WITH THIS OFFICE EXCEED IN AMOUNT
FIFTY-EIGHT MILLIONS STERLING.

The Public is respectfully informed that, by the constitution of this Society, the Insurers are made PARTICIPATORS IN ITS SAVINGS, and at the same time rendered *free from all responsibility*. In the course of last Year there was paid to the Policy Holders a Sum exceeding FORTY-SIX THOUSAND POUNDS; giving to each a DIVIDEND OF FIFTEEN PER CENT on the Premiums paid during the previous Four Years.

The RATES of Insurance are as moderate as those of any other established Office, and all just Claims are settled with liberality and expedition.

The Second Septennial Division of Profits was declared up to the 31st December, 1838, when the average additions made to the Policies entitled to participate in them amounted to about 43 per cent, or nearly ONE-HALF of the whole Premiums paid. Parties who insure, participate in the Profits from the date of EFFECTING the Insurance.

THE Directors, in order to render the advantages of Life Assurance more general, and to afford greater accommodation to persons desirous of effecting Policies, now offer to the Public two distinct plans for that purpose, viz.—

Persons may either participate in four-fifths or 80 per cent of the estimated profits, or they may effect assurances for a specific object, at *Reduced Rates of Premium*, without participating in the profits of the Society.

The Directors have also had rates calculated for effecting Assurances determinable at *fixed* periods, the sum assured being payable on death. If the party assured die before the specified period; or to **THE PARTY HIMSELF** on his attaining the age of 45, 50, 55, or 60.

The advantages which attend this last form of the contract of insurance are too evident to require much illustration; but it may not be out of place to point out a few of them. It enables a creditor insuring his debtor's life, in order to secure a past-due debt, or a present advance of money, to calculate with certainty on recovering his debt, or receiving repayment of his advance at a *fixed period*; and while, in so far as the assured himself is concerned, this system has all the advantages of the ordinary forms of assurance, it possesses this peculiar feature, of enabling every one, however limited his income may be, by the appropriation of a portion of it yearly, during his years of health, strength, and active exertion, to provide for the support of *himself*, as well as those who may be dependent on him, during his declining years.

Assurances to the extent of £5000 may be made on any healthy life, upon any of the above plans.

The Directors are also ready to entertain proposals for Special Risks, the terms of which may be learned on application at the office.

This Society *advances money* on Redeemable Annuity; on the security of Entailed Estates in Scotland; and also on approved *Personal Security*, combined with a Lite Insurance, on very favourable terms.

The following is a Selection from the Society's Table (No. VI.) of

“PREMIUMS to ASSURE ONE HUNDRED POUNDS, payable when the Person assured attains a *specific age*; or sooner, if he should die *before* his attaining that age.”

The Sum Assured payable at the following Ages, viz.

Age when Assured.	At Age 60.	At Age 55.	At Age 50.	At Age 45.
10	£1 18 0	£2 0 5	£2 3 10	£2 8 10

* EXAMPLE.—A person aged 20, may, by an annual payment of £2, 10s. 11d., assure £100, payable to himself, on his attaining the age of 60; or to his representatives, should he die before that age. By annual payments of £2, 15s. 6d., £3, 2s. 6d., and £3, 13s. 4d., the sum assured will be payable at death, or at the ages of 55, 50, and 45 respectively.

LIFE ASSURANCE.

THIS CORPORATION RANKS AMONGST THE FIRST AND MOST FLOURISHING COMPANIES IN SCOTLAND; supported by a large and influential body of Proprietors; giving to the Assured every advantage hitherto offered to the Public.

The PREMIUMS are moderately rated at all ages; and are so modified, by ascending and descending scales and otherwise, as to suit the object of every Insurer, at the least immediate outlay, whether to secure a debt, provide for his family, or to convert income into capital for his own use.

When an INSURANCE is for the WHOLE PERIOD OF LIFE ONE-HALF OF THE PREMIUMS ONLY REQUIRE TO BE PAID FOR THE FIRST FIVE YEARS AFTER THE DATE OF THE POLICY, the other half may remain unpaid; subj ct to the payment of interest at five per cent annually, to be deducted at death, or may be previously paid off at convenience.

PARTICIPATING POLICIES share in the Profits without payment of Entrance Money, or incurring the risk attending Mutual Assurance.

BONUSES may be either added to the sum Insured, or applied in reduction of future Premiums. The last Bonus (declared December, 1837) averaged thirty-seven per cent on the Premiums paid.

LOANS are granted to Policy-Holders, on approved heritable or personal security.

THIS Company has been instituted for effecting the business of Life Assurance in all its branches.

In its constitution, and rules for the conduct of business, the Company has availed itself of all the information suggested by recent investigations, and, in particular, of the results obtained from the experience of several of the long-established Life Offices now for the first time made accessible.

The Company combines the benefits of the Mutual and Proprietary systems, and by that union secures to the various classes of parties effecting Insurances advantages which neither system can separately offer.

The guarantee afforded by the Proprietors against the risks incident to Life Assurance business renders it possible to divide a much larger portion of the profits than in the system of Mutual Assurance, which requires that a large and unproductive guarantee fund be laid aside; while, with respect to parties who are desirous to effect Insurances without participation of profits, the Company, from its being adapted also to the class of Mutual Assurers, and thereby adding to its general business, is enabled to offer the very lowest rates compatible with security.

Policies may therefore be effected with this Office upon either scale on very advantageous terms, and on a footing which secures to Insurers all the advantages sanctioned by experience.

The general regulations of the Company are framed upon the most liberal and equitable principles.

Every information connected with the business of the Company will be afforded, and proposals received, at the Company's Office, No. 15, George Street, Edinburgh.

Quarter days—1st October—15th December—1st March—and 15th May.

Holidays.—The four Sacramental holidays in October and April—a week at Christmas—Good Friday—and the Queen’s birth-day.

• The Vacation includes the months of August and September.

Each pupil may attend as many of the Classes as her Parents or Guardians may judge proper, and also the Lectures given in the Institution.

Ladies, *not Pupils of the Institution*, wishing to attend the Lectures, may obtain tickets at the sum charged by the different Lecturers.

Miss Murray, the Lady Superintendent, who occupies one of the largest and most commodious houses in Moray Place, in the immediate vicinity of the Institution, receives a limited number of Boarders who attend the Institution. The boarders have the advantage of the instruction of the instruction of resident French and English Governesses. Terms, under 12 years of age, Forty Guineas : above 12 years of age, Fifty Guineas per annum. Other particulars may be known by applying to Miss MURRAY, either personally at the Institution, or by letter.

A list of respectable private families who receive young Ladies as boarders, is kept by the Secretary at the Institution : and as none are admitted on the list but such as are known to the Directors, and also recommended by the Clergyman whose church they attend, parents may rest fully assured that their daughters will be carefully attended to. The terms of Board are Thirty-five Guineas and upwards, per annum, depending in a great measure upon the accommodation and attendance required.

All letters to be addressed to Mr LEES, the Secretary, or to Miss MURRAY, at the Institution, 9, Moray Place.

QUARTER DAYS, 1ST OCTOBER, 15TH DECEMBER, 1ST MARCH, AND 15TH MAY.

ALL PAYMENTS PER ADVANCE.

Mr MACDONALD has the satisfaction of stating, that for the last six years one or more of his Pupils have carried off, at the High School, the highest honours given to the Class to which they belong. At the Examination of the High School last year (besides a number of his Pupils who received Prizes), twelve Prizes were awarded, in equal proportions, to three of his Pupils. And at the High School Examination in August, this year, one of his Pupils was *dux* of the First Class, and another of his Pupils was *dux* of the Rector's Junior Greek Class.

108, George Street, December 10, 1842.

REFERENCES AND CRITICAL NOTICES.

With regard to Character and Ability, Mr Macdonald has permission to refer to the Very Reverend Principal Lee, D.D., the Rev. Dr Muir, the Rev. Dr D. Ritchie of St Andrew's Church, and the Rev. Dr Candlish. Also, besides numerous Certificates in Mr Macdonald's possession, he takes the liberty of referring to the following:—

From John Wilson, Esq., the celebrated Vocalist.

My Dear Sir—Previous to my leaving Edinburgh, I used to attend the annual examinations of your pupils, where I received much pleasure from the beautiful manner in which their recitations were delivered, and the aptness which they all evinced in the performance of their other tasks. I received lessons in elocution from you, and benefited very much by your knowledge of that branch of education.

London, 14th June 1832.

JOHN WILSON.

From James Gall, Esq., Author of the Lesson System of Teaching.

Mr John Macdonald, as a teacher, combines mildness with firmness in an uncommon degree, regulated by a cautious prudence, which I found produced the happiest effects on my children, three of whom were taught by him at different times. There is one peculiar characteristic in his training, above any other teacher I have known, which is a great facility in making his pupils understand and apply what they read and learn.

Myrtle Bank, Trinity, 1st February 1833.

JAMES GALL.

From John F. Macfarlan, Esq., Newington.

My Dear Sir—I am so satisfied with the progress my daughter has made at your school, and with your system of tuition, which, so far as I can judge of it, seems most excellent, that I am convinced she never could be placed with a master more competent, and more anxious to advance her education. Accept my best thanks for your attention, and believe me, dear Sir, yours very truly,

Edinburgh, 15th May 1836.

JOHN F. MACFARLAN.

From Robert Stewart, Esq. of Carfin, Lanarkshire.

Mr Stewart presents his compliments to Mr Macdonald, and in leaving town, he cannot omit bearing testimony to the kind attention and singular success with which Mr Macdonald's instructions have been accompanied. In fact, Mr Stewart had not the slightest idea that so much could be done in so very short a time with so young a child. And it has had the effect of making a commencement of such a description, as may be kept increasing, if only fair pains are bestowed.

7, Coates Crescent, 14th June 1842.

ROBERT STEWART.

Sacred Readings.—"Mr Macdonald delivered a second selection of Sacred Readings in the Hope town Rooms on the evening of Monday last. The attempt to render such readings interesting is a bold one, and is such as few would risk; but in Mr Macdonald's hands it succeeded nobly; better, indeed, than almost any person could have predicted. This gentleman's ear, taste, and action, are all admirable; and nothing, whether grave or gay, sacred or profane, can but succeed in his hands."—*Edinburgh Chronicle*, March 2, 1839.

[*Mr Macdonald's School Advertisement—Continued.*]

Mr Macdonald's Readings and Recitations.—"On Thursday night, Mr Macdonald delivered a series of Readings and Recitations in the Hopetoun Rooms. Mr Macdonald acquitted himself on this occasion, as on every other, with the greatest credit to himself. His reading was at once chaste, forcible, and pleasing; and the warm manner in which he was applauded, spoke the feelings of the audience. Not the least pleasing part of the evening's entertainment was the appearance of one of Mr Macdonald's pupils, a mere child, but who showed what admirable teaching can accomplish even with the youngest."—*Edinburgh Evening Post and Scottish Standard*, November 27, 1841.

Elocution.—"On Friday, Mr Macdonald, teacher of elocution, George Street, gave a series of readings and recitations to a numerous and highly respectable company in the Hopetoun Rooms. It may be reckoned almost unnecessary for us to state, that Mr Macdonald fully sustained the high reputation which he has so long enjoyed in connexion with this useful art. The audience were delighted with the life and pathos which he infused into the words of poems, which, when ordinarily read, lose more than half their beauty, and numerous bursts of applause testified their satisfaction. Two of Mr Macdonald's pupils did great credit to his skill as a teacher, by the taste and exactness of their recitations."—*Witness*, 7th Dec. 1842.

"On Thursday, the Examination of Mr Macdonald's Academy took place in the presence of a very numerous audience. We need do no more than say, that the appearance made by his pupils on this occasion fully sustained the very high character which he has acquired as a Teacher of youth. We were particularly pleased with the intimate acquaintance with the Word of God, and the truths of revelation which they displayed; the readiness and accuracy of their answers to questions on these subjects, clearly showing the care which is taken by Mr Macdonald in their religious instruction. His success as a Teacher of Elocution, too, was evinced by the excellent style in which the recitations of his pupils were given—a style which, for simplicity and expressiveness, we have never seen equalled. The great success of Mr Macdonald as a Teacher is, we are convinced, no more than his peculiar talents, his energy, and his character deserve."—*Witness*, July 31, 1841.

J. SIBBALD & SONS,
FURNISHING IRONMONGERS TO HER MAJESTY,
64, GEORGE STREET, EDINBURGH.

J. S. & S. HAVING found, after several years' experience, that KINNAIRD GRATES are superior to all others for curing Smoke, and throwing out heat, take the liberty of recommending them to Gentlemen in the country who may require Grates, and beg also to say, that they continue to send out men to build up these and make such alterations as are likely to prevent Smoke.

The advantages of Kitchen Ranges with Back Boilers are now so generally admitted, from the facilities they afford of heating water in any quantity for Baths, Washing, Scullery and Kitchen purposes, that J. S. & S. mention them, not so much because they require recommendation, as to state, that, from the experience they have had in them, they are enabled to execute orders for them in a most satisfactory manner.

In addition to SMOKE JACKS of the ordinary construction, J. S. & S. also make an improved kind with enlarged Fly-Wheel, and in which the machinery is so placed as to be little affected by the heat or smoke, and may therefore be kept constantly in use at a very trifling expense.

BOILING TABLES, with HOT CLOSETS, OVENS, CHARCOAL PLATES, &c., of the most improved construction.

As it is impossible in this, an Advertisement, to enumerate even a small part of the goods sold by J. S. & S., they will be happy to send a book, containing a detailed List, free, by post to such families as may desire it.

PRICES OF COALS FURTHER REDUCED

MINTO HOUSE HOSPITAL AND DISPENSARY, ARGYLE SQUARE.

ORDINARY MEDICAL OFFICERS.

Dr A. Peddie, 11, Rutland Square.

Dr J. Brown, 35, London Street.

Dr Cornwall, 25, Royal Circus.

CONSULTING SURGEON.

Professor Syme, 9, Charlotte Square.

THIS Institution is intended for the benefit of a numerous class of individuals, who, when labouring under disease, though unable to pay for professional attendance, are unwilling to be considered objects of charity, and enter a public hospital. It will be found advantageous for Servants and Lodgers, who cannot, from their peculiar situations, obtain the necessary attentions and comforts during sickness; and also for patients coming from the country in quest of Medical or Surgical aid, to whom the expense of lodging and attendance, perhaps for a protracted period, would become oppressive.

The House is situated in a quiet and healthy part of the town; the building itself is commodious, the rooms airy, and provided with every necessary convenience; and all the arrangements have been made, with a view to the seclusion and comfort of the patient.

The rates of admission are 10s. or £1 per week, according to the accommodation required; and these sums are calculated as barely adequate to cover the necessary outlay for nurses, diets, and medicines.

Patients wishing to be admitted to MINTO House may apply to any of the Medical Officers, and, if resident in the country, should communicate their intention before coming to town, that arrangements may be made for their immediate reception.

Attached to the Hospital is a DISPENSARY, for the relief of the diseased poor. The Medical Officers attend every day at one o'clock, when advice and medicines are given; and those Patients who are unable to attend at the Institution, are visited at their own houses by the Pupils, who also afford assistance in urgent cases at any hour of the day or night.

DYERS & SCOURERS, &c.

PETER & ROBERT HAY,
(Successors to the late William Cooper.)

VELVET, Silk, and Satin Dyers and Dressers, and Silk Waterers, No. 1, HERIOT BUILDINGS, lower end of Dickson's Nurseries, and opposite Pilrig Avenue, Leith Walk—beg most respectfully to remind their friends and customers, and the public in general, that their business is carried on solely at the above premises.

Moreen and Damask Furniture cleaned, dyed, and dressed. Chintz Furniture cleaned, stiffened, and glazed.

 Please observe the above Address.

FAMILY MANGLE MANUFACTORY,

OPINIONS OF THE PRESS.

"This is a work that we fear there exists too much need for, to cause us to hesitate to recommend it for general perusal. Every branch of those frightful maladies, whether the result of immoral habits or secret vices, is here succinctly treated, and divested of all medical technicality; plain and easy directions are given for the best mode to be pursued in all cases, however complicated or apparently hopeless. To the married, as well as the unmarried, this little work alike affords consolation and cure in peculiar cases, and we are doing a service to society in recommending it to general notice."—*Essex and Herts Mercury*.

"This work, a Tenth Edition of which is now presented to the public, *ten thousand copies having been exhausted* since its first appearance, has been very much improved and enlarged by the addition of a more extended and clear detail of general principles, as also by the insertion of several *new and highly interesting cases*. We feel no hesitation in saying, that there is no member of society by whom the book will not be found useful, whether such person hold the relation of a PARENT, a PRECEPTOR, or a CLERGYMAN."—*Sun, Evening Paper*.

"Messrs Curtis's work, entitled 'Manhood,' is one of the few books now coming before the public on such a subject, which can lay claim to the character of being strictly professional, at the same time that it is fully intelligible to all who read it. The moral and medical precepts given in it render it invaluable."—*Magnet*.

"The perusal of Messrs Curtis's book, entitled 'Manhood,' has really astonished us, by developing a series of maladies, the never-failing consequence of the vicious habit of which it treats. The clear connexion pointed out between the assigned cause and the effects, is perceptible to every capacity."—*Age*.

Messrs Curtis and Co. are to be consulted daily at their residence, No. 7, Frith Street, Soho Square, London.

Country Patients are requested to be as minute as possible in the detail of their cases, as to the duration of the complaint, the symptoms, age, general habits of living, and occupation in life of the party; the communication must be accompanied by the usual consultation fee of L.1; and in all cases the most inviolable secrecy may be relied on.

The above forwarded, post paid, in a Sealed Envelope, for 3s. 6d., by

Passengers of the working class, who are in their working clothes, must take only such places as are given to them. Intoxicated or filthy persons, and those labouring under disease, are not admitted. To avoid delay, passengers are requested to wait for the Coaches at the Stations and Waiting-Rooms; and to have their Fares ready to pay on demand, after they have seated themselves in the Coaches. No person is allowed to put himself in a dangerous

place. Live pigs are not received, nor any live animal in a bag.

** Any complaint addressed to the Manager or any of the Collectors will be promptly attended to.

PLACES OF REFRESHMENT near the Railway.—Hill's Hotel, Farquharson's, Hislops', and Craig's, Dalkeith; Hay's, Fisherrow; Inglis's, Arniston Inn; Stobbs's, South Esk Bridge.

COAL of all kinds from the Mid-Lothian Fields are sold by the Coal-Masters and Merchants who occupy the Railway Depots; and the Certificate of the Railway Company's Weighers affords the surest guarantee of the weight and quality.

SUPERVISION OF THE COAL TRADE,

IN TERMS OF ACT OF PARLIAMENT.

THE EDINBURGH and DALKEITH RAILWAY COMPANY request the attention of the Public to their REGULATIONS for the PREVENTION of FRAUDS in the SUPPLY of COALS, as stated below, by which so many fraudulent Dealers have been detected and punished, or driven out of the Trade, since the opening of the Railway; and which, if attended to by the Purchasers of Coals, afford complete security against frauds in either the weight or the quality.

The Railway Company beg to remind the Public, that they have no interest in the Coal Trade of the Railway, but in its being extensive and respectable. Having provided the Coal Proprietors of Mid-Lothian with commodious Depots, opening into one of the greatest thoroughfares of the City, they were empowered, by Act of Parliament, to act as umpires between the Dealers in Coal and the Public, and TO COMPEL ALL COAL TO UNDERGO THE SCRUTINY OF THEIR INSPECTORS. How well the Railway Company have discharged the duty thus intrusted to them by Parliament, is proved by their having established a new and effectual method of detecting the frauds which had with impunity disgraced the Coal Trade prior to the opening of the Railway; and, by the fact that, in almost every conviction of fraudulent Dealers in the Police Court, the information and the proof have been furnished by the Railway Weighers and their assistants.

The result of the Company's system is, that fraudulent Dealers are now deterred from the Railway by the certainty of detection.

The last instance, which occurred some time since, may be related, in order to impress upon the Public the necessity of vigilance on their part, in attending to the rules annexed below:—Two Carters purchased 17 cwts. of New Craighall Household Coals in the Railway Depot, and attempted to deliver them to a lady in town as a Ton of New Craighall Jewel Coal, presenting a false certificate. The lady was deceived; but two persons employed by the Railway Inspector had followed the carters, detected the fraud in the only way such frauds can be detected; and, having obtained the false certificate from the lady, furnished complete proof against the delinquents.

For the expense of this supervising Establishment the Railway Company make no charge;—their Inspectors register the weight and quality of the Coal, and the name of the carter, and they watch the conduct of the carter as he passes along the streets—*all gratis*.

RULES.

1st. Never receive Coals without the Inspector's certificate stamp of weight and quality. A fac-simile of which is given below, as stamped in red colour on each invoice accompanying coal that is correct in weight and in quality.

2dly, Attend to the hour of departure marked on the invoice, and if the carter appears to have been more time than necessary, reject his coals.

3dly, Never allow the certificate to be kept and carried away by the carter; but let it be destroyed, or inclosed back to the Manager or the Inspector if it has any appearance of being a forgery.

4thly, If Coals appear, on delivery, to be of a different quality from what were ordered, a competent person shall be sent to inspect them, on application being made to the Inspector.

N.B.—His address is—The Coal Inspector, Edinburgh and Dalkeith Railway, St Leonard's Depot.

FUNERAL.

ISAAC SCOTT, JOB & Post-MASTER, Brae House, Lothian Road, Edinburgh, begs respectfully to direct attention to his establishment on the part of those who have the conducting of FUNERALS, as his FUNERAL EQUIPAGES are unequalled in Edinburgh for their splendour; and while his terms are no higher than those charged for Hearses, &c., of the most inferior description, he is enabled, from the extent of his business generally, to conduct this department of it in the most efficient manner.

DR GREER, OF GLASGOW,

(Who will discuss with any Doctor in Britain on the cause and cure of any disease.)

RESPECTFULLY acquaints the Inhabitants that Mr JOHN ROBERTSON, No. 4, Windmill Street, has been appointed General Agent, and has specific and full printed regulations for vending and using his Genuine Improved Universal Vegetable Medicines—being proved these nine years to be the best cure for all diseases, in either old or young, which they effect by purifying the blood, and strengthening the weakest constitution of every patient that is not too far advanced in disease to be cured.

Abundant proofs of the efficacy of the above Medicine, may be obtained on applying to Mr J. ROBERTSON, 4, Windmill Street.

REPORT OF PROCEEDINGS
AT
ANNUAL MEETING OF THE SOCIETY,
HELD AT THEIR
OFFICE, 141, BUCHANAN STREET, GLASGOW,
ON 17TH MARCH, 1842.

W. F. CAMPBELL OF ISLAY, ESQ. PRESIDENT OF THE SOCIETY,
IN THE CHAIR.

THERE was read to the meeting, by the Manager, the annual statement of the Society's affairs, from which it appeared that a greater number of Policies had been issued during the year 1841 than in any former year of the Society's existence, and that the amount of Policies which had become claims was about two-fifths of the calculated amount, according to the tables from which the premiums are deduced. The statement having been read,

The CHAIRMAN congratulated the meeting on the satisfactory state of the Society's affairs which had just been read. He was glad to observe the steady progress which it was making, and, above all, we had reason to be thankful for the unusually small proportion of the Policies which had become claims during the past year. He had a high opinion of the importance of life assurance. They all knew how

desirable it was that their death-bed should not be harassed with earthly cares; and if, when about to be called "to that bourne from whence no traveller returns," the duty of providing for those dearer to us than life should then be found to be neglected, no greater earthly anxiety could disturb our dying moments. It was a long time before a man could, by accumulation, provide the sum he wished for his family; and it was well known with what little difficulty many would find an excuse for encroaching upon their savings; besides, who can tell but that before the desired provision should be made, the hand of death might suddenly arrest him, and his family be thus deprived of those comforts which he had been the means of contributing to them during his life. In these circumstances, feeling what a benefit was conferred on the community by life assurance, he was glad to lend any assistance in his power to the advancement of such societies as their own. It was founded on an excellent basis, and did not hold forth any illusory advantages, but its members might depend on the realization of the benefits they were led to expect.

SIR ADAM HAY said, that after the excellent remarks made by the Chairman, it would be unnecessary for him to detain the meeting, and he would simply propose that, as recommended by the General Committee of Management, his Grace the Duke of Buccleuch should be elected a Vice-President of the Society, and that the Solicitor-General and Sir Thomas Joseph de Trafford, Bart., be elected Extra-

ordinary Directors, and the Rev. Dr. Norman M'Leod and Charles Forbes, Esq., banker, Ordinary Directors in room of those who retire.

MR. ALEX. CUNNINGHAM, W.S., had much pleasure in hearing the names of the gentlemen proposed by Sir Adam Hay for appointment as Directors—the business habits of those proposed for the Ordinary Direction were well known, and he had much satisfaction in seconding the motion, which having been carried,

The REV. DR. NORMAN M'LEOD, in returning thanks for his appointment as an Ordinary Director of the Society, begged to say that he felt much gratified by the honour conferred upon him by so respectable a meeting of his esteemed fellow-citizens. The confidence reposed in them inferred responsibility and diligence; he hoped that he felt that responsibility, and that he should be enabled to promote the advancement of the excellent and philanthropic objects for which the association was formed. It had frequently fallen to his lot to look out for members for various charitable and philanthropic societies, and he might with gratitude say, that he had not been an idle or inactive member of any society with which his name stood associated. In urging friends and acquaintances to become members of this Society, he felt that he was doing *them* a favour; he did not know a more philanthropic measure in which an individual could engage, or beat about from house to house over all the land, than in urging every one, whatever his rank, station, or income

might be, to become a member of an insurance association, if he had hitherto neglected so admirable a mode for making a provision for his family. And he thought no class of persons were more imperatively called upon to join such societies than clergymen who held incomes by the uncertain tenure of human life. Where was the clergyman, depending, as most of them were, on their stipend, who could in any other way make any provision for his family? He did not know how it might be with other clergymen, but he could truly say for himself, (and he was not ashamed to say it,) that in any other way he would despair of securing even one hundred pounds for his family. It had seldom or ever been his good fortune to have ten or twenty pounds by him that there was not ten or twenty demands for them. The pleasure of walking into a bank and handing over ten or twenty pounds to the teller, and asking him to add that to his accumulating cash account, was a pleasure of which he had not great experience; and should persons be enabled to accumulate a trifle, emergencies would now and then occur which might compel them to call up all they had in store; but accumulation and saving through life assurance could not so easily be encroached upon, and was secured by payment of an annual premium, requiring to be as punctually provided for as any other expense, but having this advantage over other taxes, that it was a voluntary sacrifice of income, cheerfully submitted to for the purest purposes. He knew not how a man having a family, and whose income

depended upon his own life, could excuse himself from making such a sacrifice. The Report to-day read by their Manager was truly most gratifying, and he trusted that year after year would show an increasing degree of prosperity. He again thanked the Society for the honour they had done him, and could assure them he would use his best endeavours to promote the interests of the Scottish Amicable.

MR. CHARLES FORBES thanked the meeting for the honour done him in appointing him a Director of the Society. He felt a deep interest in its welfare, and was glad to lend any assistance in his power to promote its advancement.

MR. FARQUHARSON of Allargue, moved the thanks of the meeting to the Ordinary Directors for their services during the past year.

PROFESSOR BALFOUR seconded the motion ; and the same having been unanimously adopted, and MR. CAW having returned thanks,

MR. SPROT of Garnkirk said, he was sure it must have subjected the President to much inconvenience to come there ; and when the meeting had seen the admirable manner in which he had discharged the duties of the chair, he was confident they would all cordially join him in thanking Mr. Campbell for his attendance on this day, and for his conduct in the chair. This motion having been carried by acclamation, the meeting adjourned.

REPORT OF PROCEEDINGS

AT

ANNUAL MEETING OF THE SOCIETY,

ON 23^D MARCH, 1843.

IN the absence of the President, JOHN ALSTON, Esq. of Rosemount, the senior Extraordinary Director present, having been, in accordance with the constitution of the Society, called to the chair,

MR. SPENS, the Manager, read the Report of the business of the Society for the year 1842. From this Report it appeared that the number of new Policies issued, and the amount of capital sums insured, were both greater than in any previous year of the Society's existence; and that the sum of claims arising from deaths was only about 30 per cent. of the calculated amount, according to the tables from which the premiums of the Society are deduced.

ROBERT KNOX, Esq., said, that after the satisfactory Report they had heard, and the proof they had of the progressive increase of insurers and of contributions, they must be convinced that much of this prosperity was to be attributed to the prudence and the active exertions and management of the Directors; and, it was therefore needless for him to say a word on the subject—the Report spoke for itself. He would, with much pleasure, move that the thanks

of the Meeting be given to the Ordinary Directors for their valuable services during the past year.

MR. STEWART of Carfin, seconded the motion, which was unanimously agreed to.

ROBERT JAMESON, Esq., replied on the part of the Directors, and returned thanks to the Meeting for the vote of thanks just now tendered. Next to the consciousness of discharging their duty properly, their greatest gratification was the approval of their conduct by the Members. He was proud to be able to congratulate the Society on the very satisfactory state of its affairs, as exhibited by the transactions of the past year. The increase in the extent of their business in reference to the sums insured, and the number of Policies granted, which were greater than in any former year, must be taken as a proof not only of the increasing prosperity of the Society itself, but as a proof of the confidence of the public generally in its success and stability. One very remarkable feature in the Report is the small amount of claims from deaths among the members during the last year. In 1841, the sum had been only 40 per cent. of the amount as calculated from the tables of mortality, from which the premiums were deduced, and this was properly considered as an unusually small proportion; but this year the claims were only 30 per cent. of the calculated amount. No doubt they hoped that the amount of claims would never in any year be so great as the sum provided for by the premiums; but they could not flatter themselves that the same diminution from the calculated claims

as had happened last year should frequently occur. At the same time he might mention, as most remarkable, that since their annual meeting three years ago, (thus taking a period of three years, though not three proper years of the Society's business,) the claims had not been so much as 30 per cent. of the calculated amount. He might add, for explanation, that the claims last year were in the proportion of about £1 out of £150 assured.

MR. STIRLING proposed that Arthur Forbes, Esq. and John Alston, Esq. be elected Ordinary Directors, in room of those who retire; and that Sir James Ramsay, Bart., Robert Stewart, Esq. of Carfin, and John Dundas, Esq., C.S., Edinburgh, be appointed Extraordinary Directors, in room of Mr. Alston and those who retire. He would only say he hoped that the new Directors would exhibit towards the Society the same attention and prudence which had distinguished the old, and he had no doubt that, by the blessing of God, the Society would continue to prosper. He agreed with the gentleman who moved the vote of thanks to the Directors, that the Society was deeply indebted to them for the very great attention which they had paid to the Society's matters, and was delighted to find it so prosperous, and to observe the very striking fact that the claims last year amounted only to 30 per cent. of the amount provided for.

MR. THOMAS HILL having seconded the motion made by MR. STIRLING, the same was unanimously agreed to.

MR. SPENS said that the results alluded to by Mr. Jameson, in reference to the claims emerged, were very remarkable; but he was desirous to have recorded in the statistical annals of the Society a still more extraordinary fact. If it had been their practice to state—as might have been done without much objection, if the same mode were always adhered to—the amount of claims *payable* during the year, it would have been found that the Policies payable during the year 1842, or the claims emerged between the 30th June, 1841, and the 30th June, 1842, were only in the proportion of about £1, out of £1000 assured. It was most properly observed by Mr. Jameson, that they could by no means expect in future such favourable results in reference to claims, as had occurred for some time past, but he was happy to say, that since the 25th September, up to the present time, there had been no deaths, so far as was yet known; and he was glad to add, that since the commencement of this year, a greater number of Policies had been issued, and a larger amount of capital sums had been assured, than in any previous corresponding period.

After votes of thanks to the Manager and Chairman, the meeting separated.

A SHORT STATEMENT

OF SOME OF

THE ADVANTAGES OF THE SOCIETY.

1st, ITS Establishment on the Mutual Principle, securing to its Ordinary Members the whole profits of the Society.

2d, While the rates for ordinary Members are not so high as in some offices, they are so ample as to secure the utmost confidence in the Society.

3d, The provision in the constitution of the Society, that the whole Directors shall be ordinary Members of the Society of more than three years' standing. This rule secures to the public, that those noblemen and gentlemen who appear as extraordinary and ordinary Directors of the Society, have practically approved of its principles, and are personally concerned in its advancement and success.

4th, The adaptation of its rates to the cases of Insurance, to which profits are not usually allocated; or where the party insuring desires, for particular reasons, to obtain his policy at as low a rate as possible. Reference is here particularly made to the following classes of Insurance:—Insurance of sums payable at death, or on attaining certain ages—Temporary Insurances—Survivorship Insurances—and Insurances for the whole period of life, on the assumption of a permanent annual bonus, less than what may be confidently expected. This last Table has been lately added by the Directors, and is anticipated to be one productive of very considerable profit. The Directors allow that they consider, in effecting an Insurance for the whole period of life, a party will undoubtedly gain greater advantages by paying the higher premium. They, therefore, are of course satisfied that an Insurance effected for the whole period of life, by the lower premium, is more beneficial to the Office; and as cases occur where a small annual payment is more desired or requisite than a future addition to the Policy, the advantage to the Society of such a scale is obvious.

5th, The period of seven years, which elapses betwixt the investigations of the Society, is considered to be favourable for obtaining a proper

average result of claims, by the deaths of Members ; while,

6th, The objection to a period of that length, in reference to parties dying betwixt the investigations, is obviated by providing for additions to their Policies, corresponding to the period which may elapse betwixt the previous investigation and the date of their decease.

7th, In regard to the present position of the Society, it may be stated, that at the last investigation into the affairs, as at 31st December, 1839, more than one-third of the surplus was absolutely reserved, and less than one-half was allocated in retrospective vested additions, the difference being applied in providing additions for such Policies as should become claims before next investigation, as at 31st December, 1846. At the last Annual Meeting, in March, 1843, nearly half of the septennial period had elapsed, and the interest alone of the sum set aside for the prospective additions had been more than sufficient to meet the claims upon it. During the same period, the general claims upon the Society, through deaths of Members, have, to an uncommon extent, fallen short of the sum provided for by the tables. The Directors, therefore, look forward with the utmost

confidence to the next investigation into the affairs of the Society ; and, at the same time,

8th, They are glad to think that in the caution of the rules and practice of the Society, in ascertaining and allocating the surplus funds, there are the strongest grounds for expecting that at no septennial investigation will a lower rate of addition be declared than at the previous one. This is a matter of considerable importance—at least it is desirable that the public should be aware that they ought not, without inquiry, to take for granted, that because an office has declared a certain rate of addition, the continuance of this may be depended upon. Indeed, it cannot be denied that the prospectuses and advertisements of very respectable offices are calculated to lead to an anticipation of additions which can only end in disappointment.

Farther information, and Prospectuses with Tables of Rates, may be obtained from any of the Agents, or at the Head Office from

APPARATUS
FOR
VENTILATING AND WARMING
PUBLIC BUILDINGS, CHURCHES, MANSIONS,
PRISONS, &c.

(By Her Majesty's Royal Letters Patent.)

G. AND J. HADEN, ENGINEERS AND PATENTEES,
TROWBRIDGE, WILTSHIRE,
AND 8 ST ANDREW SQUARE, EDINBURGH.

G. & J. HADEN have for many years been extensively engaged in Warming and Ventilating Public Buildings, Churches, Prisons, &c., and they have recently designed and obtained a Patent for a Combined Radiating Warm-Water Apparatus, which they can confidently recommend as being Effective, Economical, and Durable.

The Apparatus consists of a Boiler, on a peculiar principle, to which Pipes are attached, for the Circulation of Hot Water. The whole of the Radiating Surface, for raising the temperature of the air, can never exceed that of Boiling Water, but will be generally worked at a temperature of about 120 degrees.

This Apparatus being placed in connection with one set of Flues for introducing fresh air, and another set for abstracting what is impure, is capable of maintaining an agreeable and uniform temperature, together with a constant change of atmosphere in the most inclement seasons.

They are prepared to give Designs and Estimates for the above, including all the working-drawings necessary for constructing the Flues, &c.

The Apparatus is manufactured by themselves, and in each case shall be warranted to raise the temperature to any point that may have been previously agreed upon.

VENTILATION OF CELLS.

The objects to be attained under this head are—

1st, The supply of a sufficient quantity of fresh air, and, when necessary, of tempered air, into each cell, without subjecting the occupier of it to any inconvenience from the draft.

2d, The withdrawal of a like quantity of foul air.

3d, That no additional facilities of communication between prisoners in adjoining Cells should be afforded by the means made use of.

In the consideration of the means by which these objects could be secured, we have had the advantage of the practical experience of those eminent Engineers, Messrs HADEN of Trowbridge, who, on being placed in possession of our views and principles, have devoted much time to the details of a system which has been adopted in order to secure the conditions proposed.

Their Report on the subject is annexed in the Appendix of Third Report, November 1837.

45 PARLIAMENT STREET, 17th February 1843.

GENTLEMEN,—I have now had sufficient experience of the new Hot Water Apparatus you have designed and applied in warming three wings of Pentonville Prison, to be enabled to state to you that it fulfils all the conditions to which I directed your attention. An equable temperature of from 52 to 58 degrees has been maintained in all the Cells, under circumstances of great variation in external temperature. The consumption of fuel has not exceeded from 2 to 2½ cwt. of coal for sixty-six Cells, and the Ventilation or quantity of fresh air introduced into each Cell has been from 30 to 45 cubic feet per minute. The cost of maintaining this temperature and ventilation has been about ¼d. per Cell for 24 hours.

You have now completed your contract with the Commissioners of Her Majesty's Woods and Forests, for works at Pentonville; and I only do you justice in stating that every thing you have undertaken has been executed in a manner which has proved your practical skill and ability, and that all your engagements have been fulfilled with straight-forward integrity.—I am, GENTLEMEN, your obedient servant,

To Messrs G. & J. HADEN.

MR RUSSELL.

Resolved,—

1st, "That the results of the experiments on the Warming and Ventilation of the Cells, which have been conducted under the Superintendance of Dr OWEN REES, be communicated to Messrs HADEN.

2d, "That it be intimated to Messrs HADEN that the Commissioners for the government of the Pentonville Prison, consider that these objects, so essential to the health of the Prisoners, have been most successfully accomplished by them, and that all the arrangements which have been made for effecting the same are highly satisfactory."

(Signed) WHARNCLIFFE, Chairman.

*Extract from the Report of the Commissioners for the Government of
Pentonville Prison, presented to Parliament, March 1843.*

PENTONVILLE PRISON, 4th March 1843.

The construction and general arrangements of the Prison have been found most convenient in facilitating and promoting the administration of the discipline in all its branches. The perfect Ventilation of the Cells, and the means of maintaining equal and proper Temperature, have been most successfully accomplished, and cannot fail to have a beneficial effect on the health of the Prisoners.

The system of Ventilation and Warming adopted in this Prison is so effective and economical* that we cannot too strongly recommend its adoption in the Prisons throughout this Country.

ROBINSON'S DRYING MACHINE, FOR DRYING WOOL, COTTON,

AND OTHER FIBROUS MATERIALS, IN THE MANUFACTURED AND
UNMANUFACTURED STATE.

G. AND J. HADEN, ENGINEERS AND PATENTEES,
TROWBRIDGE, WILTSHIRE,
AND 8 ST ANDREW SQUARE, EDINBURGH,

HAVING purchased from Mr ROBINSON the Patent Right for Scotland, of his Highly Valuable Discovery, beg to call Public attention to the great advantages of the Machine, both as to Economy and Expedition, so amply acknowledged from its Extensive use in England and elsewhere. They are now prepared to supply the Machines, and have them forwarded to any part of the Country.

This valuable invention, which is now universally adopted in France and Prussia, offers to the Manufacturers of this Country advantages hitherto unknown—Improvement in Colour, Economy in Labour, and Saving in Fuel.

This Machine, for drying by Atmospheric Air, is one of the most useful Inventions ever offered to Manufacturers, and has already given universal satisfaction to numerous Manufacturers of Woollen and Stuff Goods, as by its means all kinds of Scoured and Dyed Wool, Woollen Cloths, Stuffs, Baize, Flannels, Blankets, Mousseline de Laines, Merinos, and all similar Fabrics, can be dried in the short space of *ten minutes*, leaving only sufficient moisture to work and finish off the Goods.

To Dyers of Worsted Yarns for Carpet-Making, this Machine will prove peculiarly advantageous, since Worsted Yarns and Cloths can be put into the Machine in bulk quite wet, and in less than ten minutes' working will be sufficiently dry, leaving a suppleness of texture and brilliancy of colour unattainable by heat.

It has been found equally valuable for Domestic purposes, in Drying all sorts of Wearing Apparel, Bed and Table Linen, Rugs, Counterpanes, &c., and is now in constant use at many Large Establishments in the Kingdom, such as the Middlesex and Surrey Lunatic Asylum, the Female Penitentiary, Pentonville, Guy's Hospital, the Work-houses of St Martin's-in-the-Fields, and Lambeth, to all of which the Patentee begs to give reference.

The peculiar advantages of this Machine, over all others hitherto introduced to the Public, are:—Its Simplicity of Construction—Extraordinary Dispatch—Economy in Labour and Fuel—Saving in the Wear and Tear, wringing being entirely obviated,—all combining to give advantages in carrying on Laundry business, and completely overcoming the important difficulties often experienced in Drying.

DAWSON'S PATENT DRIER.

The superiority of this Drier over all others, (it being well attested by some of the most eminent Painters), in causing all kinds of Paints, to dry in a much shorter period, than can be obtained by the use of any other Driers known to the trade. It is particularly recommended for Ship Painting, out of door Work, or Public Offices, where quick dispatch is required. W. D. begs to intimate, that in consequence of various spurious compositions having been sent out in Powder, and other Shapes, as Patent Drier, to the detriment of the Genuine Article, to prevent such impositions in future, each Cask will be branded "DAWSON'S PATENT DRIER."

N.B.—None are Genuine unless Branded as above.

DAWSON'S ROYAL VICTORIA BLUE, FOR BEAUTIFYING FAMILY LINEN, &c.

To Ladies who are particular in the appearance and colour of their MUSLINS, LACES, and general FAMILY LINEN—to Laundresses, who would save themselves expense and repeated labour of fresh rinsings—should use only DAWSON'S ROYAL VICTORIA BLUE; it can with confidence be recommended, as being superior to any other Blue for colouring water fit for rinsings, and imparting a beautiful and lasting whiteness to the various products of the Loom. To test the superiority of Dawson's Royal Victoria Blue over all others offered for sale, the following easy experiments can be made to prove the fact, viz.—Take two wine glasses of clear water—get a fig of the very best blue you can procure, and dissolve a small portion in one of the glasses; in the other glass, dissolve a little of Dawson's Royal Victoria Blue; let them stand for a short time, and you will see the reason why the Blues in general use get into the plaits, and otherwise leave specks and blotches on the Linen; the colouring matter in them is insoluble and will not mix with water, but falls to the bottom in muddy flakes, and particles, being merely, and during agitation only, a dark dingy colour in the water.—Dawson's Royal Victoria Blue, on the contrary, combines with the water, and gives it the true Smalts, or Powder Blue Colour, but it is superior even to smalts in this respect, that it is held in perfect solution, and never "settles" thus, while the fig Blues dry on the Linen in patches, this unequalled Blue enters with the water, into the minutest part of the fabric, and hence arises the beauty, clearness, and permanency of the whiteness it imparts.

PRICE ONE PENNY per Cake, which will colour upwards of 30 gallons water, to be used as Stone Blues, but in smaller portions—the colouring matter being so much stronger.

To Owners of Steam Boats, Founders, Gas Co's, &c.

DAWSON'S PATENT JOINTING POWDER,

The Patent Jointing Powder is particularly recommended for Jointing Steam, Water, and Gas Pipes, Gasometers, Stone, Water Tanks, &c. as it will be found to surpass White or Red Lead, in making Joints (and superior to Iron Rust), where dispatch is required, as Steam Heat can be applied immediately to the Joint made with the Patent Jointing Powder; Prepared Oil, and Directions for Use, will be sent with the Powder. The following are a few of the advantages in using Dawson's Patent Jointing Powder, which is now so generally used and approved for uniting the Joints of Steam Pipes, &c.:—A Joint put together with this Powder, and heat applied, will, in three or four hours become perfectly hard, and from its peculiar property of preserving the surface of the metal, a joint may be very soon disunited. It will harden under water, and when once set, no art can soften it again. It can be used in the form of thick paint for the inside joints of New Boilers, to prevent what are called Blows or Leaks and corrosion. Leaky old Boilers can be kept in good working condition for some months after being painted inside with the Patent Jointing Powder, which must be laid on to the consistency of thick cream. When, hard it will stand a considerable degree of heat, and can be used about Metal Flues leading from Shop Stoves, or Repairs of Furnaces. To Owners of Steam Boats, Gas Companies, &c., it is particularly recommended, for dispatch, durability, and economy, and will also be found superior to any cement or mastic in use for Jointing Water Tanks, Steam Pipes, &c.
